Introduction

This version of the online safety policy has been updated in January 2025.. In particular the policy templates have been updated as follows

- To address updates in the DfE Technical Standards for Schools and Colleges, concerning filtering, monitoring and cyber-security
- To add references to the use of Artificial Intelligence in various places across the policy template
- New sections of the main policy template (without appendices) on cyber-security and the use of AI in schools
- A new appendix (C6) on the “Use of Artificial Intelligence in Schools”
- There are new (and significantly updated) Acceptable Use Agreement templates for learners and for staff/volunteers (Appendix A1 to A4)

Our School **Online Safety Policy** considers all current and relevant issues, in a whole school context, linking with other relevant policies such as a school’s Safeguarding Policy, Behaviour Policy and Anti-Bullying Policy.

The requirement that learners can use digital technologies appropriately and safely is addressed as part of the wider duty of care to which all who work in schools are bound. Schools must, through their Online Safety Policy, meet their statutory obligations to ensure that learners are safe and are protected from potential harm, both on and off-site. It will also form part of the school’s protection from legal challenge, relating to the use of digital technologies.

These policy templates suggest policy statements which, in the view of SWGfL, would be essential in any school Online Safety Policy, based on good practice. In addition, there are a range of alternative statements that schools should consider, in their particular circumstances.

The DfE Keeping Children Safe in Education statutory guidance requires Local Authorities, Multi Academy Trusts, and schools in England to ensure learners are safe from harm:

*“It is essential that children are safeguarded from potentially harmful and inappropriate online material. An effective whole school and college approach to **online safety** empowers a school or college to protect and educate pupils, students, and staff in their use of technology and establishes mechanisms to identify, intervene in, and escalate any concerns where appropriate”*

*“Governing bodies and proprietors should ensure **online safety** is a running and interrelated theme whilst devising and implementing their whole school or college approach to safeguarding and related policies and procedures. This will include considering how **online safety** is reflected as required in all relevant policies and considering online safety whilst planning the curriculum, any*

teacher training, the role and responsibilities of the designated safeguarding lead (and deputies) and any parental engagement”

The DfE Keeping Children Safe in Education guidance also recommends:

***Reviewing online safety** ... Technology, and risks and harms related to it, evolve, and change rapidly. Schools and colleges should consider carrying out an annual review of their approach to online safety, supported by an annual risk assessment that considers and reflects the risks their children face. A free online safety self-review tool for schools can be found via the 360 safe self-review tool.*

The DfE Keeping Children Safe in Education guidance suggests that:

The breadth of issues classified within online safety is considerable and ever evolving, but can be categorised into four areas of risk:

***content:** being exposed to illegal, inappropriate, or harmful content, for example: pornography, fake news, racism, misogyny, self-harm, suicide, anti-Semitism, radicalisation, and extremism.*

***contact:** being subjected to harmful online interaction with other users; for example: peer to peer pressure, commercial advertising and adults posing as children or young adults with the intention to groom or exploit them for sexual, criminal, financial or other purposes.*

***conduct:** online behaviour that increases the likelihood of, or causes, harm; for example, making, sending and receiving explicit images (e.g. consensual and nonconsensual sharing of nudes and semi-nudes and/or pornography, sharing other explicit images and online bullying, and*

***commerce:** risks such as online gambling, inappropriate advertising, phishing and or financial scams.*

Schools in England are subject to an increased level of scrutiny of their online safety practices by Ofsted Inspectors during inspections, while the Counter Terrorism and Securities Act 2015 requires schools to ensure that children and young people are safe from terrorist and extremist material on the internet.

St Oswald's C.E. Primary School

Online Safety Policy

This policy applies to all members of the school community (including staff, learners, volunteers, parents and carers, visitors, community users) who have access to and are users of school digital systems, both in and out of the school. It also applies to the use of personal digital technology on the school site (where allowed).

Version: [2.0]

Date created: [02/02/2026]

Next review date: [01/02/2027]

Scope of the Online Safety Policy

This Online Safety Policy outlines the commitment of St Oswald's C.E. Primary School to safeguard members of our school community online in accordance with statutory guidance and best practice. As described in the DFE document Keeping Children Safe in Education 2025

Further legislation identified as

- Computer Misuse Act 1990
- Data Protection Act 1998
- Data Protection Act 2018
- Freedom of Information Act 2000
- Communication Act 2003
- Malicious Communication Act 1988
- Regulatory Powers Act 2000
- Trade Marks Act 1994

This legislation can be found in the Appendixes.

This Online Safety Policy applies to all members of the school community (including staff, learners, governors, volunteers, parents and carers, visitors, community users) who have access to and are users of school digital systems, both in and out of the school. It also applies to the use of personal digital technology on the school site (where allowed).

St Oswald's C.E. Primary School will deal with such incidents within this policy and associated behaviour and anti-bullying policies and will, where known, inform parents/carers of incidents of inappropriate online safety behaviour that take place out of school.

Policy development, monitoring and review

This Online Safety Policy has been developed by the *Safeguarding Committee, comprising of:* (

- *headteacher*
- *Designated safeguarding lead (DSL)*
- *Online Safety Lead (OSL)*
- *staff -technical staff*
- *governors (inclu) parent governor representative*

Consultation with the whole school community has taken place through a range of formal and informal meetings.

Schedule for development, monitoring and review

This Online Safety Policy was approved by the <i>school governing body</i> on:	<i>23rd March 2026</i>
The implementation of this Online Safety Policy will be monitored by:	<i>The Headteacher who is also the digital lead and DSL alongside the Safeguarding Committee</i>
Monitoring will take place at regular intervals:	<i>Insert time period twice a year during the Safeguarding Committee</i>
The <i>governing body</i> will receive a report on the implementation of the Online Safety Policy generated by the monitoring group (which will include anonymous details of online safety incidents) at regular intervals:	<i>Following each meeting of the Safeguarding Committee</i>
The Online Safety Policy will be reviewed annually, or more regularly in the light of any significant new technological developments, new threats to online safety or incidents that have taken place. The next anticipated review date will be:	<i>Reviewed annually in January</i>
Should serious online safety incidents take place, the following external persons/agencies should be informed:	<i>Local Authority senior advisor LADO</i>

Process for monitoring the impact of the Online Safety Policy

The school will monitor the impact of the policy using:

- *logs of reported incidents*
- *Filtering and monitoring logs*
- *internal monitoring data for network activity*
- *surveys/questionnaires of:*
 - *learners*
 - *parents and carers*
 - *staff.*

Policy and leadership

Responsibilities

To ensure the online safeguarding of members of our school community it is important that all members of that community work together to develop safe and responsible online behaviours, learning from each other and from good practice elsewhere, reporting inappropriate online behaviours, concerns, and misuse as soon as these become apparent. While this will be a team effort, the following sections outline the online safety roles and responsibilities of individuals¹ and groups within the school.

Headteacher and senior leaders

- The headteacher has a duty of care for ensuring the safety (including online safety) of members of the school community and fostering a culture of safeguarding, though the day-to-day responsibility for online safety is held by the Designated Safeguarding Lead, as defined in Keeping Children Safe in Education.
- The headteacher and (at least) another member of the senior leadership team should be aware of the procedures to be followed in the event of a serious online safety allegation being made against a member of staff².
- The headteacher are responsible for ensuring that the Designated Safeguarding Lead / Online Safety Lead, IT provider/technical staff, and other relevant staff carry out their responsibilities effectively and receive suitable training to enable them to carry out their roles and train other colleagues, as relevant.
- The headteacher/senior leaders will ensure that there is a system in place to allow for monitoring and support of those in school who carry out the internal online safety monitoring role.
- The headteacher will receive regular monitoring reports
- The headteacher will work with the responsible Governor, the designated safeguarding lead (DSL) and IT service providers in all aspects of filtering and monitoring.

¹ In a small school some of the roles described may be combined, though it is important to ensure that there is sufficient 'separation of responsibility' should this be the case.

² See flow chart on dealing with online safety incidents in 'Responding to incidents of misuse' and relevant local authority/MAT/ HR/other relevant body disciplinary procedures.

Governors

The DfE guidance “Keeping Children Safe in Education” states:

“Governing bodies and proprietors should ensure there are appropriate policies and procedures in place in order for appropriate action to be taken in a timely manner to safeguard and promote children’s welfare this includes ... online safety”

“Governing bodies and proprietors should ensure an appropriate senior member of staff, from the school or college leadership team, is appointed to the role of designated safeguarding lead. The designated safeguarding lead should take lead responsibility for safeguarding and child protection (including online safety and understanding the filtering and monitoring systems and processes in place)”

Governors are responsible for the approval of the Online Safety Policy and for reviewing the effectiveness of the policy e.g. by asking the questions posed in the UKCIS document “Online Safety in Schools and Colleges – questions from the Governing Body”.

This review will be carried out by the Safeguarding Committee whose members will receive regular information about online safety incidents and monitoring reports. A member of the governing body will take on the role of Online Safety Governor to include:

- regular meetings with the Designated Safeguarding Lead / Online Safety Lead
- regularly receiving (collated and anonymised) reports of online safety incidents
- checking that provision outlined in the Online Safety Policy (e.g. online safety education provision and staff training is taking place as intended)
- Ensuring that the filtering and monitoring provision is reviewed and recorded, at least annually. (The review will be conducted by members of the SLT, the DSL, and the IT service provider and involve the responsible governor) - in-line with the [DfE Filtering and Monitoring Standards](#)
- reporting to relevant *governors group/meeting*
- Receiving (at least) basic cyber-security training to enable the governors to check that the school meets the [DfE Cyber-Security Standards](#)

The governing body will also support the school in encouraging parents/carers and the wider community to become engaged in online safety activities.

Designated Safety Lead (DSL)

Keeping Children Safe in Education states that:

“The designated safeguarding lead should take lead responsibility for safeguarding and child protection (including online safety and understanding the filtering and monitoring systems and processes in place). This should be explicit in the role holder’s job description.”

They (the DSL) “are able to understand the unique risks associated with online safety and be confident that they have the relevant knowledge and up to date capability required to keep children safe whilst they are online at school or college”

They (the DSL) “can recognise the additional risks that children with special educational needs and disabilities (SEND) face online, for example, from bullying, grooming and radicalisation and are confident they have the capability to support children with SEND to stay safe online”

The DSL will:

- hold the lead responsibility for online safety, within their safeguarding role.
- Receive relevant and regularly updated training in online safety to enable them to understand the risks associated with online safety and be confident that they have the relevant knowledge and up to date capability required to keep children safe whilst they are online
- meet regularly with the online safety governor to discuss current issues, review (anonymised) incidents and filtering and monitoring logs and ensuring that annual (at least) filtering and monitoring checks are carried out
- attend relevant governing body meetings/groups
- report regularly to headteacher/senior leadership team
- **be responsible for receiving reports of online safety incidents and handling them**, and deciding whether to make a referral by liaising with relevant agencies, **ensuring that all incidents are recorded.**
- liaise with staff and IT providers on matters of safety and safeguarding and welfare (including online and digital safety)
- liaise with curriculum leaders to ensure that the online safety curriculum is planned, mapped, embedded and evaluated
- ensure that all staff are aware of the procedures that need to be followed in the event of an online safety incident taking place and the need to immediately report those incidents
- provide (or identify sources of) training and advice for staff/governors/parents/carers/learners
- liaise with technical staff, pastoral staff and support staff
- receive regularly updated training to allow them to understand how digital technologies are used and are developing (particularly by learners) with regard to the areas defined In Keeping Children Safe in Education:
 - content
 - contact
 - conduct
 - commerce

Curriculum Leads

Curriculum Leads will work with the DSL/OSL to develop a planned and coordinated online safety education programme e.g. [ProjectEVOLVE](#) .

This will be provided through:

- a discrete programme
- PHSE and SRE programmes
- A mapped cross-curricular programme
- assemblies and pastoral programmes
- through relevant national initiatives and opportunities e.g. [Safer Internet Day](#) and [Anti-bullying week](#).

Teaching and support staff

School staff are responsible for ensuring that:

- they have an awareness of current online safety matters/trends and of the current school Online Safety Policy and practices
- they understand that online safety is a core part of safeguarding
- they have read, understood, and signed the staff acceptable use agreement (AUA)
- they follow all relevant guidance and legislation including, for example, [Keeping Children Safe in Education and UK GDPR regulations](#)
- all digital communications with learners, parents and carers and others should be on a professional level *and only carried out using official school systems and devices (where staff use AI, they should only use school-approved AI services for work purposes which have been evaluated to comply with organisational security and oversight requirements)*
- they immediately report any suspected misuse or problem to the Head teacher for investigation/action, in line with the school safeguarding procedures
- online safety issues are embedded in all aspects of the curriculum and other activities
- ensure learners understand and follow the Online Safety Policy and acceptable use agreements, have a good understanding of research skills and the need to avoid plagiarism and uphold copyright regulations
- they supervise and monitor the use of digital technologies, mobile devices, cameras, etc., in lessons and other school activities (where allowed) and implement current policies regarding these devices
- in lessons where internet use is pre-planned learners are guided to sites checked as suitable for their use *and that processes are in place for dealing with any unsuitable material that is found in internet searches*
- where lessons take place using live-streaming or video-conferencing, there is regard to national safeguarding guidance and local safeguarding policies (n.b. [the guidance contained in the SWGfL Safe Remote Learning Resource](#))

- there is a zero-tolerance approach to incidents of online-bullying, sexual harassment, discrimination, hatred etc
- they model safe, responsible, and professional online behaviours in their own use of technology, including out of school and in their use of social media.
- they adhere to the school's technical security policy, with regard to the use of devices, systems and passwords and have an understanding of basic cybersecurity
- they have a general understanding of how the learners in their care use digital technologies out of school, in order to be aware of online safety issues that may develop from the use of those technologies
- they are aware of the benefits and risks of the use of Artificial Intelligence (AI) services in school, being transparent in how they use these services, prioritising human oversight. AI should assist, not replace, human decision-making. Staff must ensure that final judgments, particularly those affecting people, are made by humans, fact-checked and critically evaluated.

IT Provider

The DfE Filtering and Monitoring Standards says:

“Senior leaders should work closely with governors or proprietors, the designated safeguarding lead (DSL) and IT service providers in all aspects of filtering and monitoring. Your IT service provider may be a staff technician or an external service provider.”

“Day to day management of filtering and monitoring systems requires the specialist knowledge of both safeguarding and IT staff to be effective. The DSL should work closely together with IT service providers to meet the needs of your setting. You may need to ask filtering or monitoring providers for system specific training and support.”

“The IT service provider should have technical responsibility for:

- *maintaining filtering and monitoring systems*
- *providing filtering and monitoring reports*
- *completing actions following concerns or checks to systems”*

“The IT service provider should work with the senior leadership team and DSL to:

- *procure systems*
- *identify risk*
- *carry out reviews*
- *carry out checks”*

“We are aware that there may not be full-time staff for each of these roles and responsibility may lie as part of a wider role within the school, college, or trust. However, it must be clear who is responsible, and it must be possible to make prompt changes to your provision.”

If the school has a technology service provided by an outside contractor, it is the responsibility of the school to ensure that the provider carries out all the online safety measures that the school's obligations and responsibilities require. It is also important that the provider follows and implements school Online Safety Policy and procedures.

The IT Provider is responsible for ensuring that:

- they are aware of and follow the school Online Safety Policy and Technical Security Policy to carry out their work effectively in line with school policy
- the school technical infrastructure is secure and is not open to misuse or malicious attack
- the school meets (as a minimum) the required online safety technical requirements as identified by the [DfE Meeting Digital and Technology Standards in Schools & Colleges](#) and guidance from local authority / MAT or other relevant body
- there is clear, safe, and managed control of user access to networks and devices
- they keep up to date with online safety technical information in order to effectively carry out their online safety role and to inform and update others as relevant
- the use of technology is regularly and effectively monitored in order that any misuse/attempted misuse can be reported to [Head teacher and IT lead](#) for investigation and action
- the filtering policy is applied and updated on a regular basis and its implementation is not the sole responsibility of any single person; the IT lead and HT monitor the filtering.
- *monitoring systems are implemented and regularly updated as agreed in school policies*

Learners

- are responsible for using the school digital technology systems in accordance with the learner acceptable use agreement and Online Safety Policy ([this should include personal devices – where allowed](#))
- should understand the importance of reporting abuse, misuse or access to inappropriate materials and know how to do so
- should know what to do if they or someone they know feels vulnerable when using online technology.
- should avoid plagiarism and uphold copyright regulations, taking care when using Artificial Intelligence (AI) services to protect the intellectual property of themselves and others and checking the accuracy of content accessed through AI services.

- should understand the importance of adopting good online safety practice when using digital technologies out of school and realise that the school's Online Safety Policy covers their actions out of school, if related to their membership of the school.

Parents and carers

Parents and carers play a crucial role in ensuring that their children understand the need to use the online services and devices in an appropriate way.

The school will take every opportunity to help parents and carers understand these issues through:

- publishing the school Online Safety Policy on the school website
- providing them with a copy of the learners' acceptable use agreement *which is acknowledged via an MS Teams form.*
- publish information about appropriate use of social media relating to posts concerning the school.
- seeking their permissions concerning digital images, cloud services this is confirmed via the MS Form.
- parents'/carers' evenings, newsletters, website, social media and information about national/local online safety campaigns and literature.

Parents and carers will be encouraged to support the school in:

- *reinforcing the online safety messages provided to learners in school.*
- *the safe and responsible use of their children's personal devices in the school (where this is allowed)*

Community users

Community users who access school systems/website/learning platform as part of the wider school provision will be expected to sign a community user AUA before being provided with access to school systems

The school encourages the engagement of agencies/members of the community who can provide valuable contributions to the online safety provision and actively seeks to share its knowledge and good practice

Professional Standards

There is an expectation that professional standards will be applied to online safety as in other aspects of school life i.e.

- there is a consistent emphasis on the central importance of literacy, numeracy, digital competence and digital resilience. Learners will be supported in gaining skills across all areas of the curriculum and every opportunity will be taken to extend learners' skills and competence

- there is a willingness to develop and apply new techniques to suit the purposes of intended learning in a structured and considered approach and to learn from the experience, while taking care to avoid risks that may be attached to the adoption of developing technologies e.g. Artificial Intelligence (AI) tools.
- Staff are able to reflect on their practice, individually and collectively, against agreed standards of effective practice and affirm and celebrate their successes
- policies and protocols are in place for the use of online communication technology between the staff and other members of the school and wider community, using officially sanctioned school mechanisms.
- *Where Generative AI is used to monitor staff communications, it will be balanced with respect for privacy and transparency about what is being monitored and why.*

Policy

Online Safety Policy

The DfE guidance “Keeping Children Safe in Education” states:

“Online safety and the school or college’s approach to it should be reflected in the child protection policy”

The school Online Safety Policy:

- sets expectations for the safe and responsible use of digital technologies for learning, administration, and communication
- allocates responsibilities for the delivery of the policy
- is regularly reviewed in a collaborative manner, taking account of online safety incidents and changes/trends in technology and related behaviours
- establishes guidance for staff in how they should use digital technologies responsibly, protecting themselves and the school and how they should use this understanding to help safeguard learners in the digital world
- describes how the school will help prepare learners to be safe and responsible users of online technologies
- establishes clear procedures to identify, report, respond to and record the misuse of digital technologies and online safety incidents, including external support mechanisms
- is supplemented by a series of related acceptable use agreements
- is made available to staff at induction and through normal communication channels (to be described)
- *is published on the school website.*

Acceptable use

The school has defined what it regards as acceptable/unacceptable use and this is shown in the tables below.

Acceptable use agreements

An Acceptable Use Agreement is a document that outlines a school's expectations on the responsible use of technology by its users. In most schools they are signed or acknowledged by their staff as part of their conditions of employment. Some may also require learners and parents/carers to sign them, though it is more important for these to be regularly promoted, understood and followed rather than just signed. There is a range of acceptable use agreements in the appendices.

The Online Safety Policy and acceptable use agreements define acceptable use at the school. The acceptable use agreements will be communicated/re-enforced through: **(amend as appropriate)**

- learner handbook
- staff induction and handbook
- splash screens
- digital signage
- posters/notices around where technology is used
- communication with parents/carers
- built into education sessions
- school website
- peer support.

Schools should discuss and agree which activities are acceptable/unacceptable. This will vary with the size/structure of the school and the ages of the learners. It is recommended that the school discuss and agree on these activities and to complete the following tables as guidance for members of the school community:

User actions		Acceptable	Acceptable at certain times	Acceptable for nominated users	Unacceptable	Unacceptable and illegal
Users shall not access online content (including apps, games, sites) to make, post, download, upload, data transfer,	Any illegal activity for example: <ul style="list-style-type: none"> • Child sexual abuse imagery* • Child sexual abuse/exploitation/grooming • Terrorism • Encouraging or assisting suicide 					X

User actions		Acceptable	Acceptable at certain times	Acceptable for nominated users	Unacceptable	Unacceptable and illegal
<p>communicate or pass on, material, remarks, proposals or comments that contain or relate to:</p>	<ul style="list-style-type: none"> • Offences relating to sexual images i.e., revenge and extreme pornography • Incitement to and threats of violence • Hate crime • Public order offences - harassment and stalking • Drug-related offences • Weapons / firearms offences • Fraud and financial crime including money laundering <p>N.B. Schools should refer to guidance about dealing with self-generated images/sexting – UKSIC Responding to and managing sexting incidents and UKCIS – Sexting in schools and colleges</p>					
<p>Users shall not undertake activities that might be classed as cyber-crime under the Computer Misuse Act (1990)</p>	<ul style="list-style-type: none"> • Using another individual's username or ID and password to access data, a program, or parts of a system that the user is not authorised to access (even if the initial access is authorised) • Gaining unauthorised access to school networks, data and files, through the use of computers/devices • Creating or propagating computer viruses or other harmful files • Revealing or publicising confidential or proprietary information (e.g., financial / personal information, databases, computer / network access codes and passwords) • Disable/Impair/Disrupt network functionality through the use of computers/devices • Using penetration testing equipment (without relevant permission) <p>N.B. Schools will need to decide whether these should be dealt with internally or by the police. Serious or repeat offences should be reported to the police. The National Crime Agency has a remit to prevent learners becoming involved in cyber-</p>					X

User actions		Acceptable	Acceptable at certain times	Acceptable for nominated users	Unacceptable	Unacceptable and illegal
	crime and harness their activity in positive ways-further information here					
Users shall not undertake activities that are not illegal but are classed as unacceptable in school policies:	Accessing inappropriate material/activities online in a school setting including pornography, gambling, drugs. (Informed by the school's filtering practices and/or AUAs)			X	X	
	Promotion of any kind of discrimination				X	
	Using school systems to run a private business				X	
	Using systems, applications, websites or other mechanisms that bypass the filtering/monitoring or other safeguards employed by the school				X X	
	Infringing copyright and intellectual property (including through the use of AI services)				X	
	Unfair usage (downloading/uploading large files that hinders others in their use of the internet)			X	X	
	Any other information which may be offensive to others or breaches the integrity of the ethos of the school or brings the school into disrepute				X	

Consideration should be given for the following activities when undertaken for non-educational purposes: Schools may wish to add further activities to this list.	Staff and other adults				Learners			
	Not allowed	Allowed	Allowed at certain times	Allowed for selected staff	Not allowed	Allowed	Allowed at certain times	Allowed with staff permission/awareness
Online gaming								
Online shopping/commerce								
File sharing								
Social media								
Messaging/chat								
Entertainment streaming e.g. Netflix, Disney+								
Use of video broadcasting, e.g. YouTube, Twitch, TikTok								
Mobile phones may be brought to school								
Use of mobile phones for learning at school								
Use of mobile phones in social time at school								
Taking photos on mobile phones/cameras								
Use of other personal devices, e.g. tablets, gaming devices								

Use of personal e-mail in school, or on school network/wi-fi								
Use of school e-mail for personal e-mails								
Use of AI services that have not been approved by the school								

When using communication technologies, the school considers the following as good practice:

- when communicating in a professional capacity, staff should ensure that the technologies they use are officially sanctioned by the school.
- any digital communication between staff and learners or parents/carers (e-mail, social media, learning platform, etc.) must be professional in tone and content.
- staff should be expected to follow good practice when using personal social media regarding their own professional reputation and that of the school and its community
- users should immediately report to a nominated person – in accordance with the school policy – the receipt of any communication that makes them feel uncomfortable, is offensive, discriminatory, threatening or bullying in nature and must not respond to any such communication.

Reporting and responding

The 2021 Ofsted “Review of Sexual Abuse in Schools and Colleges” highlighted the need for schools to understand that reporting systems do not always respond to the needs of learners. While the report looks specifically at harmful sexual behaviours, schools may wish to address these issues more generally in reviewing their reporting systems. The Ofsted review suggested:

“School and college leaders should create a culture where sexual harassment and online sexual abuse are not tolerated, and where they identify issues and intervene early to better protect children and young people. ..In order to do this, they should assume that sexual harassment and online sexual abuse are happening in their setting, even when there are no specific reports, and put in place a whole-school approach to address them. This should include:

- *routine record-keeping and analysis of sexual harassment and sexual violence, including online, to identify patterns and intervene early to prevent abuse”*

The school will take all reasonable precautions to ensure online safety for all school users but recognises that incidents may occur inside and outside of the school (with impact on the school) which will need intervention. The school will ensure:

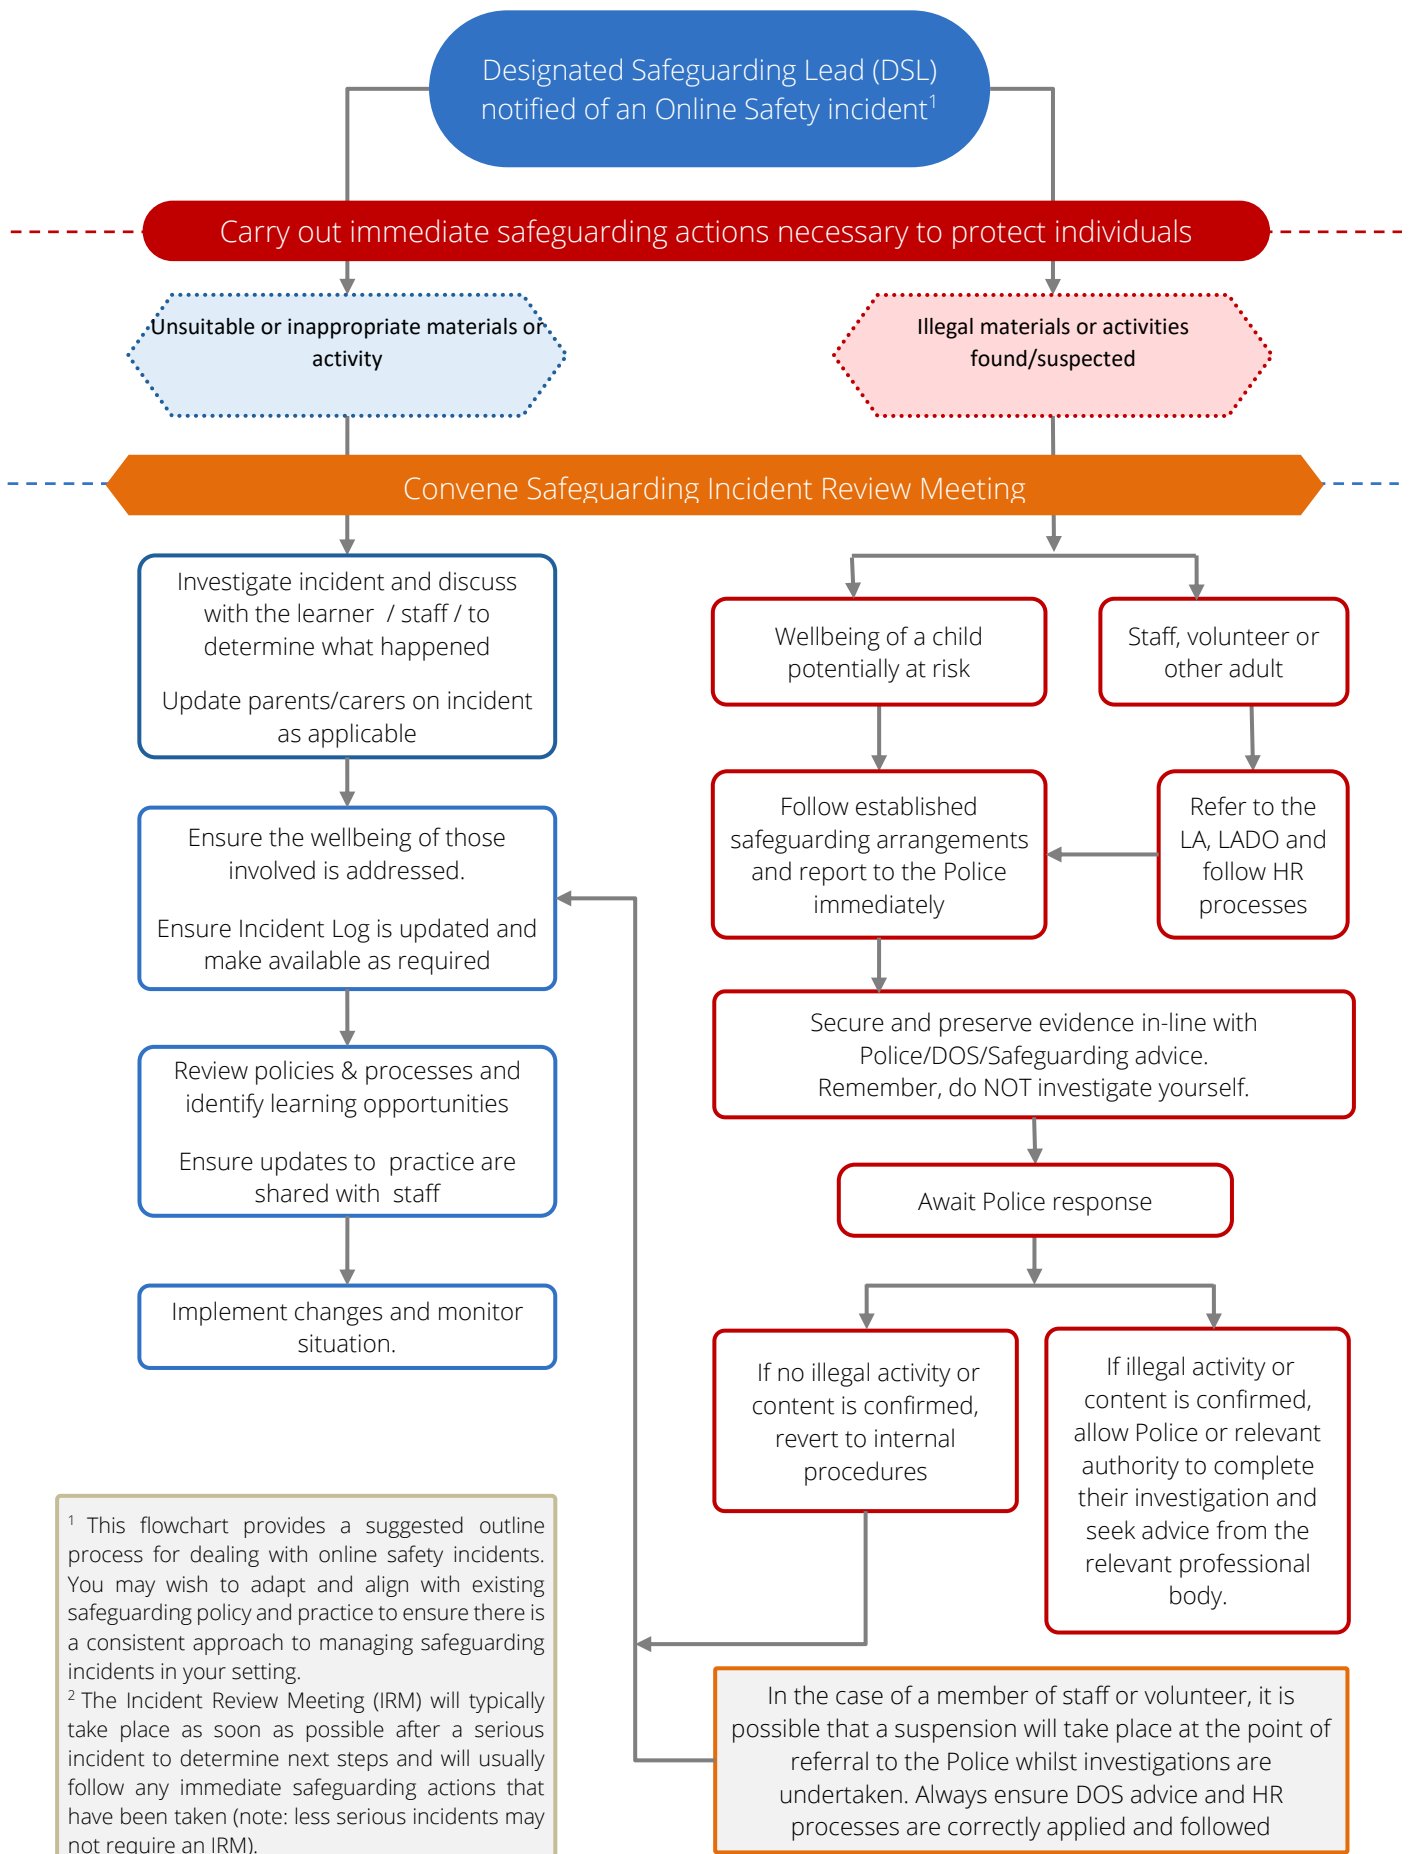

- there are clear reporting routes which are understood and followed by all members of the school community which are consistent with the school safeguarding procedures, and with the whistleblowing, complaints and managing allegations policies.

- all members of the school community will be made aware of the need to report online safety issues/incidents
- reports will be dealt with as soon as is practically possible once they are received
- the Designated Safeguarding Lead, Online Safety Lead and other responsible staff have appropriate skills and training to deal with online safety risks.
- if there is any suspicion that the incident involves any illegal activity or the potential for serious harm ([see flowchart and user actions chart in the appendix](#)), the incident must be escalated through the agreed school safeguarding procedures, this may include
 - Non-consensual images
 - Self-generated images
 - Terrorism/extremism
 - Hate crime/ Abuse
 - Fraud and extortion
 - Harassment/stalking
 - Child Sexual Abuse Material (CSAM)
 - Child Sexual Exploitation Grooming
 - Extreme Pornography
 - Sale of illegal materials/substances
 - Cyber or hacking offences under the Computer Misuse Act
 - Copyright theft or piracy
- any concern about staff misuse will be reported to the Headteacher, unless the concern involves the Headteacher, in which case the complaint is referred to the Chair of Governors and the local authority
- where there is no suspected illegal activity, devices may be checked using the following procedures:
 - one or more senior members of staff should be involved in this process. This is vital to protect individuals if accusations are subsequently reported.
 - conduct the procedure using a designated device that will not be used by learners and, if necessary, can be taken off site by the police should the need arise (should illegal activity be subsequently suspected). Use the same device for the duration of the procedure.
 - ensure that the relevant staff have appropriate internet access to conduct the procedure, but also that the sites and content visited are closely monitored and recorded (to provide further protection).
 - record the URL of any site containing the alleged misuse and describe the nature of the content causing concern. It may also be necessary to record and store screenshots of the content on the machine being used for investigation. These may be printed, signed, and attached to the form
 - once this has been completed and fully investigated the group will need to judge whether this concern has substance or not. If it does, then appropriate action will be required and could include the following:

- internal response or discipline procedures
- involvement by local authority / MAT (as relevant)
- police involvement and/or action
- it is important that those reporting an online safety incident have confidence that the report will be treated seriously and dealt with effectively
- there are support strategies in place e.g., peer support for those reporting or affected by an online safety incident
- incidents should be logged using the reporting log shown in the appendix.
- relevant staff are aware of external sources of support and guidance in dealing with online safety issues, e.g. local authority; police; [Professionals Online Safety Helpline](#); [Reporting Harmful Content](#); [CEOP](#).
- those involved in the incident will be provided with feedback about the outcome of the investigation and follow up actions as relevant.
- learning from the incident (or pattern of incidents) will be provided to:
 - *the Online Safety Group for consideration of updates to policies or education programmes and to review how effectively the report was dealt with*
 - *staff, through regular briefings*
 - *learners, through assemblies/lessons*
 - *parents/carers, through newsletters, school social media, website*
 - *governors, through regular safeguarding updates*
 - *local authority/external agencies, as relevant (The Ofsted Review into Sexual Abuse in Schools and Colleges suggested “working closely with Local Safeguarding Partnerships in the area where the school or college is located so they are aware of the range of support available to children and young people who are victims or who perpetrate harmful sexual behaviour”*

The school will make the flowchart below available to staff to support the decision-making process for dealing with online safety incidents.

The flowchart below is new in January 2025. There is little change to the content, but the flowchart has been re-designed to make it easier for schools to edit. Schools are recommended to replace previous versions with this.

School actions

It is more likely that the school will need to deal with incidents that involve inappropriate rather than illegal misuse. It is important that any incidents are dealt with as soon as possible in a proportionate manner, and that members of the school community are aware that incidents have been dealt with. It is intended that incidents of misuse will be dealt with through normal behaviour/disciplinary procedures as follows: (the school will need to agree upon its own responses and place the ticks in the relevant columns. They may also wish to add additional text to the column(s) on the left to clarify issues. Schools have found it useful to use the charts below at staff meetings/training sessions)

Responding to Learner Actions

Incidents	Refer to class teacher/tutor	Refer to Head of Department / Principal Teacher / Deputy Head	Refer to Headteacher	Refer to Police/Social Work	Refer to local authority technical support for advice/action	Inform parents/carers	Remove device/network/internet access	Issue a warning	Further sanction, in line with behaviour policy
Deliberately accessing or trying to access material that could be considered illegal (see list in earlier section on User Actions on unsuitable/inappropriate activities).		X	X	X					
Attempting to access or accessing the school network, using another user's account (staff or learner) or allowing others to access school network by sharing username and passwords		X				X			X
Corrupting or destroying the data of other users.		X	X					X	X
Sending an e-mail, text or message that is regarded as offensive, harassment or of a bullying nature						X			X
Unauthorised downloading or uploading of files or use of file sharing.			X			X			X

Using proxy sites or other means to subvert the school's filtering system.							X		X
Accidentally accessing offensive or pornographic material and failing to report the incident.			X					X	
Deliberately accessing or trying to access offensive or pornographic material.			X		X	X			X
Receipt or transmission of material that infringes the copyright of another person or infringes the Data Protection Act.			X		X				
Unauthorised use of digital devices (including taking images)			X			X			X
Unauthorised use of online services			X			X			X
Actions which could bring the school into disrepute or breach the integrity or the ethos of the school.			X			X	X		
Continued infringements of the above, following previous warnings or sanctions.			X			X	X		

Responding to Staff Actions

Incidents	Refer to line manager	Refer to Headteacher/ Principal	Refer to local authority/MAT/HR	Refer to Police	Refer to LA / Technical Support Staff for action re filtering, etc.	Issue a warning	Suspension	Disciplinary action
Deliberately accessing or trying to access material that could be considered illegal (see list in earlier section on unsuitable / inappropriate activities)		X	X	X				
Actions which breach data protection or network / cyber-security rules.		X	X	X	X			
Deliberately accessing or trying to access offensive or pornographic material		X		X			X	X
Corrupting or destroying the data of other users or causing deliberate damage to hardware or software		X						X
Using proxy sites or other means to subvert the school's filtering system.		X			X	X		
Unauthorised downloading or uploading of files or file sharing		X	X		X			X
Breaching copyright/ intellectual property or licensing regulations (including through the use of AI systems)		X				X		
Allowing others to access school network by sharing username and passwords or attempting to access or accessing the school network, using another person's account.		X				X		

Sending an e-mail, text or message that is regarded as offensive, harassment or of a bullying nature		X	X				X	
Using personal e-mail/social networking/messaging to carry out digital communications with learners and parents/carers	X							
Inappropriate personal use of the digital technologies e.g. social media / personal e-mail	X X					X		
Careless use of personal data, e.g. displaying, holding or transferring data in an insecure manner		X						
Actions which could compromise the staff member's professional standing		X				X		
Actions which could bring the school into disrepute or breach the integrity or the ethos of the school.		X						X
Failing to report incidents whether caused by deliberate or accidental actions		X				X		
Continued infringements of the above, following previous warnings or sanctions.		X	X					X

The use of Artificial Intelligence (AI) systems in School

An AI policy has been adopted using the guidance from the Data Hub from Derbyshire Local Authority. St Oswald's Take use of I very seriously and staff have received information and policy sharing. DPIA's are in place for use of specific AI within school

As Generative Artificial Intelligence (gen AI) continues to advance and influence the world we live in , its role in education is also evolving. There are currently 3 key dimensions of AI use in schools: learner support, teacher support and school operations; ensuring all use is safe, ethical and responsible is essential.

We realise that there are risks involved in the use of Gen AI services, but that these can be mitigated through our existing policies and procedures, amending these as necessary to address the risks.

We will educate staff and learners about safe and ethical use of AI, preparing them for a future in which these technologies are likely to play an increasing role.

The safeguarding of staff and learners will, as always, be at the forefront of our policy and practice.

Policy Statements

- The school acknowledges the potential benefits of the use of AI in an educational context - including enhancing learning and teaching, improving outcomes, improving administrative processes, reducing workload and preparing staff and learners for a future in which AI technology will be an integral part. Staff are encouraged to use AI based tools to support their work where appropriate, within the frameworks provided below and are required to be professionally responsible and accountable for this area of their work.
- We will comply with all relevant legislation and guidance, with reference to guidance contained in Keeping Children Safe in Education and UK GDPR
- We will provide relevant training for staff and governors in the advantages, use of and potential risks of AI. We will support staff in identifying training and development needs to enable relevant opportunities.
- We will seek to embed learning about AI as appropriate in our curriculum offer, including supporting learners to understand how gen AI works, its potential benefits, risks, and ethical and social impacts. The school recognises the importance of equipping learners with the knowledge, skills and strategies to engage responsibly with AI tools..
- As set out in the staff acceptable use agreement, staff will be supported to use AI tools responsibly, ensuring the protection of both personal and sensitive data. Staff should only input anonymised data to avoid the exposure of personally identifiable or sensitive information.
- Staff will always ensure AI tools used comply with UK GDPR and other data protection regulations. They must verify that tools meet data security standards before using them for work related to the school.
- Only those AI technologies approved by the school may be used. Staff should always use school-provided AI accounts for work purposes. These accounts are configured to comply with organisational security and oversight requirements, reducing the risk of data breaches.
- We will protect sensitive information. Staff must not input sensitive information, such as internal documents or strategic plans, into third-party AI tools unless explicitly vetted for that purpose. They must always recognise and safeguard sensitive data.
- The school will ensure that when AI is used, it will not infringe copyright or intellectual property conventions – care will be taken to avoid intellectual property, including that of the learners, being used to train generative AI models without appropriate consent.

- AI incidents must be reported promptly. Staff must report any incidents involving AI misuse, data breaches, or inappropriate outputs immediately to the relevant internal teams. Quick reporting helps mitigate risks and facilitates a prompt response.
- The school will audit all AI systems in use and assess their potential impact on staff, learners and the school's systems and procedures, creating an AI inventory listing all tools in use, their purpose and potential risks and have a specific DPIA in place.
- We are aware of the potential risk for discrimination and bias in the outputs from AI tools and have in place interventions and protocols to deal with any issues that may arise. When procuring and implementing AI systems, we will follow due care and diligence to prioritise fairness and safety.
- *The school will support parents and carers in their understanding of the use of AI in the school (this could be through an "AI in our school guide")*
- *AI tools may be used to assist teachers in the assessment of learners' work, identification of areas for improvement and the provision of feedback. Teachers may also support learners to gain feedback on their own work using AI*
- *Maintain Transparency in AI-Generated Content. Staff should ensure that documents, emails, presentations, and other outputs influenced by AI include clear labels or notes indicating AI assistance. Clearly marking AI-generated content helps build trust and ensures that others are informed when AI has been used in communications or documents.*
- *We will prioritise human oversight. AI should assist, not replace, human decision-making. Staff must ensure that final judgments, particularly those affecting people, are made by humans and critically evaluate AI-generated outputs. They must ensure that all AI-generated content is fact-checked and reviewed for accuracy before sharing or publishing. This is especially important for external communication to avoid spreading misinformation.*
- Recourse for improper use and disciplinary procedures. Improper use of AI tools, including breaches of data protection standards, misuse of sensitive information, or failure to adhere to this agreement, will be subject to disciplinary action as defined in Staff Disciplinary Policy.

Online Safety Education Programme

While regulation and technical solutions are particularly important, their use must be balanced by educating learners to take a responsible approach. The education of learners in online safety is therefore an essential part of St Oswald's online safety provision. Learners need the help and support of the school to recognise and avoid online safety risks and develop their resilience.

The 2021 Ofsted "Review of Sexual Abuse in Schools and Colleges" highlighted the need for:

"a carefully sequenced RSHE curriculum, based on the Department for Education's (DfE's) statutory guidance, that specifically includes sexual harassment and sexual violence, including online. This should include time for open discussion of topics that children and young people tell us they find particularly difficult, such as consent and the sending of 'nudes'.."

Keeping Children Safe in Education states:

"Governing bodies and proprietors should ensure online safety is a running and interrelated theme whilst devising and implementing their whole school or college approach to safeguarding and related policies and procedures. This will include considering how online safety is reflected as required in all relevant policies and considering online safety whilst planning the curriculum ..."

Online safety should be a focus in all areas of the curriculum and staff should reinforce online safety messages across the curriculum. The online safety curriculum should be broad, relevant and provide progression, with opportunities for creative activities and will be provided in the following ways (statements may need to be adapted, depending on school structure and the age of the learners).

- A **planned online safety curriculum** for all year groups matched against a nationally agreed framework e.g. **Education for a Connected World Framework by UKCIS/DCMS and the SWGfL Project Evolve** and regularly taught in a variety of contexts.
- Lessons are matched to need; are age-related and build on prior learning
- Lessons are context-relevant with agreed objectives leading to clear and evidenced outcomes
- Learner need and progress are addressed through **effective planning and assessment**
- Digital competency is planned and effectively threaded through the appropriate digital pillars in other curriculum areas e.g. PHSE; SRE; Literacy etc
- it incorporates/makes use of relevant national initiatives and opportunities e.g. [Safer Internet Day](#) and [Anti-bullying week](#)
- the programme will be accessible to learners at different ages and abilities such as those with additional learning needs or those with English as an additional language.
- learners should be taught in all lessons to be critically aware of the materials/content they access online and be guided to validate the accuracy of information (including where the information is gained from Artificial Intelligence services)
- learners should be taught to acknowledge the source of information used and to respect copyright / intellectual property when using material accessed on the internet and particularly through the use of Artificial Intelligence services
- vulnerability is actively addressed as part of a personalised online safety curriculum e.g., for victims of abuse and SEND.
- . Acceptable use is reinforced across the curriculum, with opportunities to discuss how to act within moral and legal boundaries online, with reference to the Computer Misuse Act 1990. Lessons and further resources are available on the [CyberChoices](#) site.
- *in lessons where internet use is pre-planned, it is best practice that learners should be guided to sites checked as suitable for their use and that processes are in place for dealing with any unsuitable material that is found in internet searches*

- where learners are allowed to freely search the internet, staff should be vigilant in supervising the learners and monitoring the content of the websites / tools (including AI systems) the learners visit
- it is accepted that from time to time, for good educational reasons, learners may need to research topics, (e.g. racism, drugs, discrimination) that would normally result in internet searches being blocked. In such a situation, staff should be able to request the temporary removal of those sites from the filtered list for the period of study. Any request to do so, should be auditable, with clear reasons for the need
- the online safety education programme should be relevant and up to date to ensure the quality of learning and outcomes.

Contribution of Learners

The school acknowledges, learns from, and uses the skills and knowledge of learners in the use of digital technologies. We recognise the potential for this to shape the online safety strategy for the school community and how this contributes positively to the personal development of young people. Their contribution is recognised through: [\(amend as relevant\)](#)

- mechanisms to canvass learner feedback and opinion.
- appointment of digital leaders/anti-bullying ambassadors/peer mentors [\(or similar groups\)](#)
- the Online Safety Group has learner representation
- learners contribute to the online safety education programme e.g. peer education, digital leaders leading lessons for younger learners, online safety campaigns
- learners designing/updating acceptable use agreements
- contributing to online safety events with the wider school community e.g. parents' evenings, family learning programmes etc.

Staff/volunteers

The DfE guidance "Keeping Children Safe in Education" states:

"All staff should receive appropriate safeguarding and child protection training (**including online safety**) at induction. The training should be **regularly updated**. In addition, all staff should receive safeguarding and child protection (**including online safety**) updates (for example, via email, e-bulletins, and staff meetings), as required, and at least annually, to continue to provide them with relevant skills and knowledge to safeguard children effectively."

“Governing bodies and proprietors should ensure... that safeguarding training for staff, **including online safety** training, is integrated, aligned and considered as part of the whole school or college safeguarding approach and wider staff training and curriculum planning.”

All staff will receive online safety training and understand their responsibilities, as outlined in this policy. Training will be offered as follows:

- a planned programme of formal online safety and data protection training will be made available to all staff. This will be regularly updated and reinforced. An audit of the online safety training needs of all staff will be carried out regularly.
- the training will be an integral part of the school's annual safeguarding, data protection and cyber-security training for all staff
- all new staff will receive online safety training as part of their induction programme, ensuring that they fully understand the school online safety policy and acceptable use agreements. It includes explicit reference to classroom management, professional conduct, online reputation and the need to model positive online behaviours.
- *the Head teacher and Designated Safeguarding Lead (or other nominated person) will receive regular updates through attendance at external training events, (e.g. UKSIC / SWGfL / LA / other relevant organisations) and by reviewing guidance documents released by relevant organisations*
- *this Online Safety Policy and its updates will be presented to and discussed by staff in staff/team meetings/INSET days*
- *the Designated Safeguarding Lead/Online Safety Lead (or other nominated person) will provide advice/guidance/training to individuals as required.*

Governors

Governors should take part in online safety training/awareness sessions, with particular importance for those who are members of any sub-committee/group involved in technology/online safety/health and safety/safeguarding. This may be offered in several ways such as:

- attendance at training provided by the local authority or other relevant organisation (e.g., SWGfL)
- participation in school training / information sessions for staff or parents (this may include attendance at assemblies/lessons).

A higher level of training will be made available to (at least) the Online Safety Governor. This will include:

- Cyber-security training (at least at a basic level)
- Training to allow the governor to understand the school's filtering and monitoring provision, in order that they can participate in the required checks and reviews.

Families

Many parents and carers have only a limited understanding of online safety risks and issues, yet they play an essential role in the education of their children and in the monitoring/regulation of the children's online behaviours. Parents may underestimate how often children and young people come across potentially harmful and inappropriate material on the internet and may be unsure about how to respond.

The school will seek to provide information and awareness to parents and carers through: (

- *regular communication, awareness-raising and engagement on online safety issues, curriculum activities and reporting routes*
- *letters, newsletters, website,*
- *high profile events / campaigns e.g. [Safer Internet Day](#)*
- *reference to the relevant web sites/publications, e.g. [SWGfL](#); www.saferinternet.org.uk/; www.childnet.com/parents-and-carers (see Appendix for further links/resources).*
- *Sharing good practice with other schools in clusters and or the local authority.*

Adults and Agencies

The school will provide opportunities for local community groups and members of the wider community to gain from the school's online safety knowledge and experience. This may be offered through the following:

- *online safety messages targeted towards families and relatives.*
- *providing family learning courses in use of digital technologies and online safety*
- *providing online safety information via their website and social media for the wider community*
- *supporting community groups, e.g. early years settings, childminders, youth/sports/voluntary groups to enhance their online safety provision (consider supporting these groups with an online safety review using 360 Groups or 360 Early Years).*

Technology

The DfE Filtering and Monitoring Standards states that “**Your IT service provider may be a staff technician or an external service provider**”. If the school has an external technology provider, it is the responsibility of the school to ensure that the provider carries out all the online safety and security measures that would otherwise be the responsibility of the school. It is also important that the technology provider is fully aware of the school Online Safety Policy/acceptable use agreements and the school has a Data Processing Agreement in place with them. The school should also check their local authority/other relevant body policies on these technical and data protection issues if the

service is not provided by the authority and will need to ensure that they have completed a Data Protection Impact Assessment (DPIA) for this contract.

The school is responsible for ensuring that the school infrastructure/network is as safe and secure as is reasonably possible and that policies and procedures approved within this policy are implemented. The school should ensure that all staff are made aware of policies and procedures in place on a regular basis and explain that everyone is responsible for online safety and data protection. This is managed through a Digital strategy and security policy.

Filtering & Monitoring

The DfE guidance (for England) on filtering and monitoring in “Keeping Children Safe in Education” states:

“It is essential that governing bodies and proprietors ensure that appropriate filtering and monitoring systems are in place ...governing bodies and proprietors should be doing all that they reasonably can to limit children’s exposure to the ... risks from the school’s or college’s IT system. As part of this process, governing bodies and proprietors should ensure their school or college has appropriate filtering and monitoring systems in place and regularly review their effectiveness. They should ensure that the leadership team and relevant staff have an awareness and understanding of the provisions in place and manage them effectively and know how to escalate concerns when identified...

The appropriateness of any filtering and monitoring systems are a matter for individual schools and colleges and will be informed in part, by the risk assessment required by the Prevent Duty. To support schools and colleges to meet this duty, the Department for Education has published filtering and monitoring standards...”

The school filtering and monitoring provision is agreed by senior leaders, governors and the IT Service Provider and is regularly reviewed (at least annually) and updated in response to changes in technology and patterns of online safety incidents/behaviours

Day to day management of filtering and monitoring systems requires the specialist knowledge of both safeguarding and IT staff to be effective. The DSL will have lead responsibility for safeguarding and online safety and the IT service provider will have technical responsibility

the filtering and monitoring provision is reviewed (at least annually) by senior leaders, the Designated Safeguarding Lead and a governor with the involvement of the IT Service Provider.

- checks on the filtering and monitoring system are carried out by the IT Service Provider with the involvement of a senior leader, the Designated Safeguarding Lead and a governor, in particular when a safeguarding risk is identified, there is a change in working practice, e.g. remote access or BYOD or new technology is introduced e.g. using [SWGfL Test Filtering](#)

Filtering

The DfE Technical Standards for Schools and Colleges states:

“Schools and colleges have a statutory responsibility to keep children and young people safe online as well as offline. Governing bodies and proprietors should make sure their school or college has appropriate filtering and monitoring systems in place, as detailed in the statutory guidance, Keeping children safe in education.

Filtering is preventative. It refers to solutions that protect users from accessing illegal, inappropriate and potentially harmful content online. It does this by identifying and blocking specific web links and web content in the form of text, images, audio and video

These standards help school and college leaders, designated safeguarding leads and IT support understand how to work together to make sure they can effectively safeguard their students and staff.”

- The head teacher and governor, are responsible for ensuring these standards are met. Roles and responsibilities of staff supporting IT support are clearly defined
- the school manages access to content across its systems for all users and on all devices using the schools internet provision. The filtering provided meets the standards defined in the DfE **Filtering standards for schools and colleges** and the guidance provided in the UK Safer Internet Centre [Appropriate filtering](#).
- illegal content (e.g., child sexual abuse images) is filtered by the broadband or filtering provider by actively employing the Internet Watch Foundation URL list and the police assessed list of unlawful terrorist content, produced on behalf of the Home Office. Content lists are regularly updated
- there are established and effective routes for users to report inappropriate content, recognising that no system can be 100% effective. These are acted upon in a timely manner, within clearly established procedures. The first point to report is to the Head teacher and then the IT technician who will check the fire walls.
- there is a clear process in place to deal with, and log, requests/approvals for filtering changes
- filtering logs are regularly reviewed and alert the Designated Safeguarding Lead to breaches of the filtering policy, which are then acted upon.

- There are regular checks of the effectiveness of the filtering systems . Checks are undertaken across a range of devices monthly and the results recorded and analysed to inform and improve provision. The Headteacher/DSL is informed.
- Devices that are provided by the school have school-based filtering applied irrespective of their location.
- *the school has a mobile phone policy and where personal mobile devices have internet access through the school network, content is managed in ways that are consistent with school policy and practice.*
- *access to content through non-browser services (e.g. apps and other mobile technologies) is managed in ways that are consistent with school policy and practice. (schools should be aware of the difficulties of providing effective filtering on some tablet devices)*

If necessary, the school will seek advice from, and report issues to, the SWGfL [Report Harmful Content](#) site.

Monitoring

The DfE Technical Standards for Schools and Colleges states:

“Monitoring is reactive. It refers to solutions that monitor what users are doing on devices and, in some cases, records this activity. Monitoring can be manual, for example, teachers viewing screens as they walk around a classroom. Technical monitoring solutions rely on software applied to a device that views a user’s activity. Reports or alerts are generated based on illegal, inappropriate, or potentially harmful activities, including bullying. Monitoring solutions do not block users from seeing or doing anything.”

The school follows the UK Safer Internet Centre [Appropriate Monitoring](#) guidance.

The school has monitoring systems in place, agreed by senior leaders and technical staff, to protect the school, systems and users: The school monitors all network use across all its devices and services.

- monitoring reports are urgently picked up, acted on and outcomes are recorded by the Designated Safeguarding Lead, all users are aware that monitoring is in place.
- There are effective protocols in place to report abuse/misuse. There is a clear process for prioritising response to alerts that require rapid safeguarding intervention.
- Management of serious safeguarding alerts is consistent with safeguarding policy and practice.
- **The monitoring provision is reviewed at least once every academic year and updated in response to changes in technology and patterns of online safety incidents and behaviours. The review should be conducted by members of the**

senior leadership team, the designated safeguarding lead, and technical staff. It will also involve the responsible governor. The results of the review will be recorded and reported as relevant.

- Devices that are provided by the school have school-based monitoring applied irrespective of their location.
- monitoring enables alerts to be matched to users and devices.

Technical Security

The school technical systems will be managed in ways that ensure that the school meets recommended standards in the [DfE Technical Standards for Schools and Colleges](#) (and others outlined in local authority / MAT policy and guidance):

- responsibility for technical security resides with SLT who may delegate activities to identified roles.
- A documented access control model is in place, clearly defining access rights to school systems and devices. This is reviewed annually. All users (staff and learners) have responsibility for the security of their username and password and must not allow other users to access the systems using their log on details. Users must immediately report any suspicion or evidence that there has been a breach of security
- password policy and procedures are implemented and are consistent with guidance from the National Cyber Security Centre
- all school networks, devices and system will be protected by secure passwords.
- the administrator passwords for school systems are kept in a secure place, e.g. school safe.
- there is a risk-based approach to the allocation of learner usernames and passwords
- there will be regular reviews and audits of the safety and security of school technical systems
- servers, wireless systems and cabling are securely located and physical access restricted
- appropriate security measures are in place to protect the servers, firewalls, routers, wireless systems and devices from accidental or malicious attempts which might threaten the security of the school systems and data. These are tested regularly. The school infrastructure and individual workstations are protected by up-to-date endpoint software.
- there are rigorous and verified back-up routines, including the keeping of network-separated (air-gapped) copies off-site or in the cloud,
- **The IT lead** is responsible for ensuring that all software purchased by and used by the school is adequately licenced and that the latest software updates (patches) are applied.
- an appropriate system is in place for users to report any actual/potential technical incident/security breach to the relevant person, as agreed)
- use of school devices out of school and by family members is regulated by an acceptable use statement that a user consents to when the device is allocated to them

- personal use of any device on the school network is regulated by acceptable use statements that a user consents to when using the network
- staff members are not permitted to install software on a school-owned devices without the consent of the SLT/IT service provider
- removable media is not permitted unless approved by the SLT/IT service provider
- systems are in place to control and protect personal data and data is encrypted at rest and in transit.
- mobile device security and management procedures are in place
- guest users are provided with appropriate access to school systems based on an identified risk profile.
- systems are in place that prevent the unauthorised sharing of personal / sensitive data unless safely encrypted or otherwise secured.
- Care will be taken when using Artificial Intelligence services to avoid the input of sensitive information, such as personal data, internal documents or strategic plans, into third-party AI systems unless explicitly vetted for that purpose. Staff must always recognise and safeguard sensitive data.
- dual-factor authentication is used for sensitive data or access outside of a trusted network

Mobile technologies

The DfE guidance “Keeping Children Safe in Education” states:

“The school or college should have a clear policy on the use of mobile and smart technology. Amongst other things this will reflect the fact many children have unlimited and unrestricted access to the internet via mobile phone networks (i.e. 3G, 4G and 5G). This access means some children, whilst at school or college, sexually harass, bully, and control others via their mobile and smart technology, share indecent images consensually and non-consensually (often via large chat groups) and view and share pornography and other harmful content. Schools and colleges should carefully consider how this is managed on their premises and reflect this in their mobile and smart technology policy and their child protection policy.”

Mobile technology devices may be school owned/provided or personally owned and might include smartphone, tablet, wearable devices, notebook/laptop or other technology that usually has the capability of utilising the school's wireless network. The device then has access to the wider internet which may include the school learning platform and other cloud-based services such as e-mail and data storage.

All users should understand that the primary purpose of the use of mobile/personal devices in a school context is educational. The mobile technologies policy should be consistent with and inter-related to other relevant school policies including but not limited to those for safeguarding,

behaviour, anti-bullying, acceptable use, and policies around theft or malicious damage. Teaching about the safe and appropriate use of mobile technologies should be an integral part of the school's online safety education programme.

In preparing a mobile technologies policy the school should consider possible issues and risks. These may include:

- security risks in allowing connections to your school network
- filtering of personal devices
- breakages and insurance
- access to devices for all learners
- avoiding potential classroom distraction
- network connection speeds, types of devices
- charging facilities
- total cost of ownership.

A range of mobile technology strategies is possible. However, these need to be thoroughly researched, risk assessed and aligned with existing policy prior to implementation. A more detailed mobile technologies policy template can be found in the Appendix.

The school acceptable use agreements for staff, learners, parents, and carers outline the expectations around the use of mobile technologies.

The school allows:

	School devices			Personal devices		
	School owned for	School owned for	Authorised device ³	Student owned	Staff owned	Visitor owned

³ Authorised device – purchased by the learner/family through a school-organised scheme. This device may be given full access to the network as if it were owned by the school.

	individual use	multiple users				
Allowed in school	Yes	Yes	Yes	Yes but switches off and clear signed AUA in place	Yes AUA signed	Yes guest network
Full network access	Yes	Yes	Yes	No	No	No
Internet only	Yes	Yes	Yes	No	Yes	Yes guest network
No network access				Yes	Yes	Yes guest network

School owned/provided devices:

- all school devices are managed through the use of Mobile Device Management software
- there is an asset log that clearly states whom a device has been allocated to. There is clear guidance on where, when and how use is allowed
- any designated mobile-free zone is clearly signposted
- personal use (e.g. online banking, shopping, images etc.) is clearly defined and expectations are well-communicated.
- the use of devices on trips/events away from school is clearly defined and expectation are well-communicated.
- liability for damage aligns with current school policy for the replacement of equipment.
- education is in place to support responsible use.

Personal devices:

- there is a clear policy covering the use of personal mobile devices on school premises for all users
- where devices are used to support learning, staff have been trained in their planning, use and implementation, ensuring that all learners can access a required resource.
- where personal devices are brought to school, but their use is not permitted, appropriate, safe and secure storage should be made available.

- *use of personal devices for school business is defined in the acceptable use policy and staff handbook. Personal devices commissioned onto the school network are segregated effectively from school-owned systems*
- *the expectations for taking/storing/using images/video aligns with the school's acceptable use policy and use of images/video policy. The non-consensual taking/using of images of others is not permitted.*
- *liability for loss/damage or malfunction of personal devices is clearly defined*
- *there is clear advice and guidance at the point of entry for visitors to acknowledge school requirements*
- *education about the safe and responsible use of mobile devices is included in the school online safety education programmes*

Social media

With widespread use of social media for professional and personal purposes a policy that sets out clear guidance for staff to manage risk and behaviour online is essential. Core messages should include the protection of learners, the school and the individual when publishing any material online.

Expectations for teachers' professional conduct are set out in the DfE Teachers Standards but all adults working with children and young people must understand that the nature and responsibilities of their work place them in a position of trust and that their conduct should reflect this.

All schools and local authorities have a duty of care to provide a safe learning environment for learners and staff. Schools could be held responsible, indirectly for acts of their employees in the course of their employment. Staff members who harass, bully online, discriminate on the grounds of sex, race, or disability or who defame a third party may render the school liable to the injured party. Reasonable steps to prevent predictable harm must be in place.

The school provides the following measures to ensure reasonable steps are in place to minimise risk of harm to learners through:

- ensuring that personal information is not published.
- education/training being provided including acceptable use, age restrictions, social media risks, digital and video images policy, checking of settings, data protection and reporting issues.
- clear reporting guidance, including responsibilities, procedures, and sanctions.
- risk assessment, including legal risk.
- guidance for learners, parents/carers

School staff should ensure that:

- No reference should be made in social media to learners, parents/carers or school staff.
- they do not engage in online discussion on personal matters relating to members of the school community.

- personal opinions should not be attributed to the school.
- security settings on personal social media profiles are regularly checked to minimise risk of loss of personal information.
- they act as positive role models in their use of social media

When official school social media accounts are established, there should be:

- a process for approval by senior leaders
- clear processes for the administration, moderation, and monitoring of these accounts – involving at least two members of staff
- a code of behaviour for users of the accounts
- systems for reporting and dealing with abuse and misuse
- understanding of how incidents may be dealt with under school disciplinary procedures.

Personal use

- personal communications are those made via personal social media accounts. In all cases, where a personal account is used which associates itself with, or impacts on, the school it must be made clear that the member of staff is not communicating on behalf of the school with an appropriate disclaimer. Such personal communications are within the scope of this policy
- personal communications which do not refer to or impact upon the school are outside the scope of this policy
- where excessive personal use of social media in school is suspected, and considered to be interfering with relevant duties, disciplinary action may be taken
- *the school permits reasonable and appropriate access to personal social media sites during school hours*

Monitoring of public social media

- As part of active social media engagement, the school may pro-actively monitor the Internet for public postings about the school.
- the school should effectively respond to social media comments made by others according to a defined policy or process.
- when parents/carers express concerns about the school on social media we will urge them to make direct contact with the school, in private, to resolve the matter. Where this cannot be resolved, parents/carers should be informed of the school complaints procedure.

School use of social media for professional purposes will be checked regularly by a senior leader and the Online Safety Lead to ensure compliance with the social media, data protection, communications, digital image and video policies. In the event of any social media issues that the school is unable to resolve support may be sought from the Professionals Online Safety Helpline.

The social media policy template in Appendix C4 provides more detailed guidance on the school's responsibilities and on good practice.

Digital and video images

The development of digital imaging technologies has created significant benefits to learning, allowing staff and learners instant use of images that they have recorded themselves or downloaded from the internet. However, staff, parents/carers and learners need to be aware of the risks associated with publishing digital images on the internet. Such images may provide avenues for online bullying to take place. Digital images may remain available on the internet forever and may cause harm or embarrassment to individuals in the short or longer term. It is common for employers to carry out internet searches for information about potential and existing employees.

The school will inform and educate users about these risks and will implement policies to reduce the likelihood of the potential for harm ([select/delete as appropriate](#)):

- the school may use live-streaming or video-conferencing services in line with national and local safeguarding guidance / policies. Guidance can be found on the [SWGfL Safer Remote Learning web pages](#) and in the [DfE Safeguarding and remote education](#)
- when using digital images, staff will inform and educate learners about the risks associated with the taking, use, sharing, publication and distribution of images.
- staff/volunteers must be aware of those learners whose images must not be taken/published. Those images should only be taken on school devices. The personal devices of staff should not be used for such purposes
- in accordance with [guidance from the Information Commissioner's Office](#), parents/carers are welcome to take videos and digital images of their children at school events for their own personal use (as such use is not covered by the Data Protection Act). To respect everyone's privacy and in some cases protection, these images should not be published/made publicly available on social networking sites, nor should parents/carers comment on any activities involving other *learners* in the digital/video images
- *staff and volunteers are allowed to take digital/video images to support educational aims, but must follow school policies concerning the sharing, storage, distribution and publication of those images*
- *care should be taken when sharing digital/video images that learners are appropriately dressed*
- *learners must not take, use, share, publish or distribute images of others without their permission*
- *photographs published on the website, or elsewhere that include learners will be selected carefully and will comply with Online Safety Policy*
- learners' full names will not be used anywhere on a website or blog, particularly in association with photographs.

- written permission from parents or carers will be obtained before photographs of learners are taken for use in school or published on the school website/social media. [This is shared and requested at the beginning of the year.](#)
- parents/carers will be informed of the purposes for the use of images, how they will be stored and for how long – in line with the school data protection policy
- images will be securely stored in line with the school retention policy

Online Publishing

The school communicates with parents/carers and the wider community and promotes the school through [\(amend as necessary\)](#):

- Public-facing website
- Social media
- Online newsletters
- *Other (to be described)*

The school website is managed/hosted by [\(insert details\)](#). The school ensures that online safety policy has been followed in the use of online publishing e.g., use of digital and video images, copyright, identification of young people, publication of school calendars and personal information – ensuring that there is least risk to members of the school community, through such publications.

Where learner work, images or videos are published, their identities are protected, and full names are not published.

The school public online publishing provides information about online safety e.g., publishing the schools Online Safety Policy and acceptable use agreements; curating latest advice and guidance; news articles etc, creating an online safety page on the school website.

The website includes an online reporting process for parents and the wider community to register issues and concerns to complement the internal reporting process.

Data Protection

Personal data will be recorded, processed, transferred, and made available according to the current data protection legislation.

The school:

- has a Data Protection Policy.
- implements the data protection principles and can demonstrate that it does so
- has paid the appropriate fee to the Information Commissioner's Office (ICO)

- has appointed an appropriate Data Protection Officer (DPO) who has effective understanding of data protection law and is free from any conflict of interest. [This is via the Data Hub at the local Authority GDPRIS](#)
- has a 'Record of Processing Activities' in place and knows exactly what personal data is held, where, why and which member of staff has responsibility for managing it
- the Record of Processing Activities lists the lawful basis for processing personal data (including, where relevant, consent). Where special category data is processed, an additional lawful basis is listed
- has an 'information asset register' in place and knows exactly [what personal data is held](#), where, why and which member of staff has responsibility for managing it
- information asset register lists the lawful basis for processing personal data (including, where relevant, consent). Where special category data is processed, an additional lawful basis will have also been listed
- will hold the minimum personal data necessary to enable it to perform its function and will not hold it for longer than necessary for the purposes it was collected for. The school 'retention schedule' supports this
- data held is accurate and up to date and is held only for the purpose it was held for. Systems are in place to identify inaccuracies, such as asking parents to check emergency contact details at suitable intervals
- provides staff, parents, volunteers, teenagers, and older children with information about how the school looks after their data and what their rights are in a clear Privacy Notice (see Privacy Notice section in the appendix)
- has procedures in place to deal with the individual rights of the data subject, [e.g. one of the dozen rights applicable is that of Subject Access which enables an individual to see/have a copy of the personal data held about them](#)
- carries out Data Protection Impact Assessments (DPIA) where necessary e.g. to ensure protection of personal data when accessed using any remote access solutions, or entering into a relationship with a new supplier
- has undertaken appropriate due diligence and has data protection compliant contracts in place with any data processors
- understands how to share data lawfully and safely with other relevant data controllers.
- has clear and understood policies and routines for the deletion and disposal of data
- [reports any relevant breaches to the Information Commissioner](#) within 72hrs of becoming aware of the breach as required by law. It also reports relevant breaches to the individuals affected as required by law. In order to do this, it has a policy for reporting, logging, managing, investigating and learning from information risk incidents

- has a Freedom of Information Policy which sets out how it will deal with FOI requests
- provides data protection training for all staff at induction and appropriate refresher training thereafter. Staff undertaking particular data protection functions, such as handling requests under the individual's rights, will receive training appropriate for their function as well as the core training provided to all staff
- ensures that where AI services are used, data privacy is prioritised

When personal data is stored on any mobile device or removable media the:

- data will be encrypted, and password protected.
- device will be password protected. ([Be sure to select devices that can be protected in this way](#))
- device will be protected by up-to-date endpoint (anti-virus) software
- data will be securely deleted from the device, in line with school policy (below) once it has been transferred or its use is complete.

Staff must ensure that they: ([schools may wish to include more school specific detail](#))

- at all times take care to ensure the safe keeping of personal data, minimising the risk of its loss or misuse
- can recognise a possible breach, understand the need for urgency and know who to report it to within the school
- can help data subjects understand their rights and know how to handle a request whether verbal or written and know who to pass it to in the school
- only use encrypted data storage for personal data
- will not transfer any school personal data to personal devices. ([Procedures should be in place to enable staff to work from home \(i.e. VPN access to the school network, or a work laptop provided\)](#)).
- use personal data only on secure password protected computers and other devices, ensuring that they are properly "logged-off" at the end of any session in which they are using personal data
- transfer data using encryption, a secure email account (where appropriate), and secure password protected devices.

[The Personal Data Advice and Guidance in the appendix \(B2\) provides more detailed information on the school's responsibilities and on good practice.](#)

Cyber Security

[The DfE Cyber security standards for schools and colleges explains:](#)

“Cyber incidents and attacks have significant operational and financial impacts on schools and colleges. These incidents or attacks will often be an intentional and unauthorised attempt to access, change or damage data and digital technology. They could be made by a person, group, or organisation outside or inside the school or college and can lead to:

- safeguarding issues due to sensitive personal data being compromised
- impact on student outcomes
- a significant data breach
- significant and lasting disruption, including the risk of repeated future cyber incidents and attacks, including school or college closure
- financial loss
- reputational damage”

The [‘Cyber-security in schools: questions for governing bodies and Trustees’](#) guidance produced by the National Cyber Security Centre (NCSC) aims to support governing bodies’ and management committees’ understanding of their education settings’ cyber security risks. The guidance includes eight questions to facilitate the cyber security conversation between the governing body and school leaders, with the governing body taking the lead.

The school may wish to consider the following statements, amending them in the light of their current cybersecurity policy, processes and procedures:

- the school has reviewed the DfE Cyber security standards for schools and colleges and is working toward meeting these standards
- the school will conduct a cyber risk assessment annually and review each term
- the school, (*in partnership with their technology support partner*), has identified the most critical parts of the school’s digital and technology services and sought assurance about their cyber security
- the school has an effective backup and restoration plan in place in the event of cyber attacks
- the school’s governance and IT policies reflect the importance of good cyber security
- staff and Governors receive training on the common cyber security threats and incidents that schools experience
- the school’s education programmes include cyber awareness for learners
- the school has a business continuity and incident management plan in place
- there are processes in place for the reporting of cyber incidents. **All staff have a responsibility to report cyber risk or a potential incident or attack, understand how to do this feel safe and comfortable to do so.**

Outcomes

The impact of the Online Safety Policy and practice is regularly evaluated through the review/audit of online safety incident logs; behaviour/bullying reports; surveys of staff, learners; parents/carers and is reported to relevant groups:

- there is balanced professional debate about the evidence taken from the reviews/audits and the impact of preventative work e.g., online safety education, awareness, and training
- there are well-established routes to regularly report patterns of online safety incidents and outcomes to school leadership and Governors
- parents/carers are informed of patterns of online safety incidents as part of the school's online safety awareness raising
- online safety (and related) policies and procedures are regularly updated in response to the evidence gathered from these reviews/audits/professional debate
- the evidence of impact is shared with other schools, agencies and LAs to help ensure the development of a consistent and effective local online safety strategy.

Appendix

Copies of the more detailed template policies and agreements, contained in the appendix, can be found in the links and resources section of the relevant aspects in the 360safe self-review tool and online on the [SWGfL website](#). The appendices are as follows:

- A1 - Learner Acceptable Use Agreement Template – for older learners
- A2 - Learner Acceptable Use Agreement Template – KS2
- A3 - Learner Acceptable Use Agreement Template – for younger learners (Foundation/KS1)
- A4 - Parent/Carer Acceptable Use Agreement Template
- A5 - Staff (and Volunteer) Acceptable Use Policy Agreement Template
- A6 - Community Users Acceptable Use Agreement Template
- A7 – Online Safety Group Terms of Reference Template
- A8 - Harmful Sexual Behaviour Policy Template (new template added September 2022)
- A9 - Computer Misuse and Cyber Choices Policy Template
- A10 - Responding to incidents of misuse – flow chart
- A11 - Record of reviewing devices/internet sites (responding to incidents of misuse)
- A12 - Reporting Log
- B1 - Training Needs Audit Log
- Legislation
- Links to other organisations and resources
- Glossary of Terms

SWGfL would like to acknowledge a range of individuals and organisations whose policies, documents, advice, and guidance have contributed to the development of this school Online Safety Policy template and of the 360 safe online safety self-review tool:

Copyright of these policy templates is held by SWGfL. Schools and other educational institutions are permitted free use of the policy templates for the purposes of policy review and development. Any person or organisation wishing to use the document for other purposes should seek consent from SWGfL (onlinesafety@swgfl.org.uk) and acknowledge its use.

Every effort has been made to ensure that the information included in this document is accurate, as at the date of publication in January 2025. However, SWGfL cannot guarantee it's accuracy, nor can it accept liability in respect of the use of the material.

Appendix A1- Learner Acceptable Use Agreement Template – for older learners

This template has been significantly updated in January 2025 to take account of changes in digital technologies and behaviour and to simplify the agreement. Schools already using this template are recommended to adopt this new version as there are too many changes to make a “tracked changes” version relevant.

Sections that include advice or guidance are written in BLUE. It is anticipated that schools will remove these sections from their final acceptable use document. Schools should review and amend the contents of this agreement to ensure that it is consistent with their online safety policy and other relevant school policies. Due to the number of optional statements and the advice/guidance sections included in this template, it is anticipated that the final document will be more concise. Schools will need to decide on the suitability of the statements/language used and may wish to amend these in light of the age/abilities of the learners.

This acceptable use agreement is intended to ensure:

- that young people will be responsible users and stay safe while using the internet and other digital technologies for educational, personal and recreational use.
- that school systems and users are protected from accidental or deliberate misuse that could put the security of the systems and will have good access to digital technologies to enhance their learning and will, in return, expect the learners to agree to be responsible users.

Learner Acceptable Use Agreement Form

I agree to use the school’s digital systems responsibly to protect my safety, the security of the school systems, and others.

Personal Safety

- The school will monitor my use of its digital systems, devices, and communications.
- I will keep my usernames and passwords secure and private. If compromised, I will report or change them immediately.
- I will only share personal information, like my name or address, when absolutely necessary and with permission.

- I will be cautious when meeting online contacts in person, only doing so with a trusted adult in a public place.
- I will take responsibility for my actions online, using tools like blocking or ending chats if needed.
- I will share images of myself or others only when it is safe and will ensure the images are appropriate and respectful.
- I will only take or share images of myself, or others, when fully dressed. I understand that sharing nude or semi-nude content can cause distress, may be illegal and could lead to prosecution / criminal records.
- I will report harmful or unpleasant material, messages, or anything that worries or upsets me to a trusted adult.

Respecting Others' Work and Information

- I will seek permission before using or adapting someone else's work.
- I will verify information I find online, as it may not always be accurate or truthful.
- I will only use Artificial Intelligence (AI) tools approved by the school and ensure my use is ethical, legal, and transparent.
- I will fact-check and critically evaluate AI-generated content for accuracy, bias, and discrimination before sharing or publishing.
- I will avoid downloading or using copyrighted or protected materials without proper permissions.

Responsible Online Behaviour

- I will be polite and responsible when I communicate with others. I will not use strong, aggressive or inappropriate language and I appreciate that others may have different opinions. I will not bully, harass, threaten, upset or make fun of others.
- I will only use platforms or software approved by the school and will not attempt to bypass the filtering/security systems in place. If I become aware of any such attempts, I will report this to a trusted adult.
- I understand cybersecurity poses a risk to both me, other learners and the school and will ensure I take precautions before accessing emails, messages or links. I will check with trusted adults if I have any such concerns.
- I will immediately report any damage, faults or failings involving equipment or software, however this may have happened.

- I will follow the age requirements for social media, apps, and tools.
- I will balance my online and offline activities to promote a healthy lifestyle.
- I will protect my online reputation and that of the school, its staff, and other learners.
- I understand that some online behaviours might be regarded, by some, as fun but can have serious consequences – this might include taking (or sharing) images/videos of staff, fights, learners in embarrassing situations or the setting up of fake accounts.
- I will ensure my behaviour reflects positively on the school, both in and out of school settings.

Consequences of Misuse

- I understand that failing to follow this agreement may lead to consequences, including loss of access to the school's systems, detentions, suspensions, contacting parents/carers, or involvement of the police in serious cases.

By following these guidelines, I will contribute to a safe, respectful, and productive online environment.

I have read and understand the above and agree to follow these guidelines when:

- I use the school's systems and devices (both in and out of school)
- I use my own devices in the school (when allowed)
- I use digital technologies out of the school in a way that is related to me being a member of this school e.g. communicating with other members of the school, accessing school email, website etc.

(Schools will need to decide if they require learners to sign, or whether they wish to simply make them aware of acceptable use through education programmes/awareness raising).

Name of Learner: Group/Class:.....

Signed: Date:

Parent/Carer Countersignature (optional)

It is for schools to decide whether or not they require parents/carers to sign the parent/carers acceptable use agreement (see template later in this document). This includes a number of other permission forms (including digital and video images/biometric permission/cloud computing permission).

Some schools may, instead, wish to add a countersignature box for parents/carers to this learner acceptable use agreement.

Appendix A2 - Learner Acceptable Use Agreement Template – for KS2

This template has been significantly updated in January 2025 to take account of changes in digital technologies and behaviour and to simplify the agreement. Schools already using this template are recommended to adopt this new version as there are too many changes to make a “tracked changes” version relevant.

Sections that include advice or guidance are written in BLUE. It is anticipated that schools will remove these sections from their final acceptable use document. Schools should review and amend the contents of this agreement to ensure that it is consistent with their school policies. Schools will need to decide on the suitability of the statements/language used and may wish to amend these in light of the age/abilities of the learners.

This acceptable use agreement is intended:

- to ensure that learners will have good access to devices and online content, be responsible users and stay safe while using digital technologies for educational, personal and recreational use
- to help learners understand good online behaviours that they can use in school, but also outside school
- to protect school devices and networks from accidental or deliberate misuse that could put the security of the systems and users at risk.

Acceptable Use Agreement

I agree to use the school's digital systems safely and responsibly to protect me, other learners and the school.

Keeping Safe Online

- The school will check how I use devices and the internet to keep everyone safe.
- I will keep my usernames and passwords private and tell a trusted adult if someone else knows them.
- I will be careful when talking to people online and will only talk to people I know and trust.
- I will not share personal information like my name, address, or photos without asking a trusted adult.

- I will only take or share images of myself, or others, when fully dressed.
- If I see or hear something online that worries or upsets me, I will tell a trusted adult straight away.
- I will only meet people I have spoken to online if a trusted adult is with me.

Using Computers and the Internet Sensibly

- I will only use devices, apps and sites that I am allowed to, and will check if I am unsure.
- I will always ask permission and check with a trusted adult before using someone else's work or pictures.
- I will make sure the information I find online is true by checking carefully.
- I will only use apps or tools, like AI, that my teacher has said are OK, and I will ask for help if I'm unsure.
- I will not copy or use music, videos, or games unless I have permission.
- I will tell a trusted adult about any damage to devices or if anything else goes wrong.
- I will check with trusted adults before clicking on any unexpected messages or links (even if these look as though they are from people that I already know).

Being Respectful and Responsible

- I will treat others kindly online, just as I do in real life.
- I will make good choices about what I share online to protect myself and others.
- I will spend a healthy amount of time using devices and make time for other activities too.
- I will always think about how my behaviour online could affect me, my friends, and my school.

What Happens If I Break These Rules

- If I don't follow these rules, my teacher may stop me from using computers or devices, speak to my parents, or take other actions to help me make better choices in the future.

By following these rules, I can enjoy using technology safely and responsibly.

I have read and understand the above and agree to follow these guidelines when:

- I use the school systems and devices (both in and out of school)
- I use my own devices in the school (when allowed) e.g. mobile phones, gaming devices USB devices, cameras etc.
- I am out of school and involved in any online behaviour that might affect the school or other members of the school.

Name of Learner: Group/Class:.....

Signed: Date:

Schools will need to decide if they require learners to sign, or whether they wish to simply make them aware through education programmes/awareness raising.

Parent/Carer Countersignature (optional)

It is for schools to decide whether or not they require parents/carers to sign the parent/carers acceptable use agreement (see template later in this document in the Parent/Carer AUA). This includes a number of other permission forms (including digital and video images/biometric permission/cloud computing permission).

Some schools may, instead, wish to add a countersignature box for parents/carers to this learner acceptable use agreement.

A3 Learner Acceptable Use Agreement Template – for younger learners (Early Years/KS1)

This template has been significantly updated in January 2025 to take account of changes in digital technologies and behaviour and to simplify the agreement. Schools already using this template are recommended to adopt this new version as there are too many changes to make a “tracked changes” version relevant.

Our Technology Rules

I will follow these rules to use computers, tablets and the internet safely at school.

Staying Safe

- My teacher will watch what I do on computers, tablets and the internet to keep me safe.
- I will keep my passwords secret and tell my teacher if I need help.
- I understand that people online are not always who they say they are. I will only talk to people online if my teacher or a trusted adult says it's OK.
- I will not share my name, address, or pictures without asking my teacher or a trusted adult first.
- If I see something that makes me feel worried or upset, I will tell my teacher or a trusted adult straight away.
- I will only use apps, games or websites my teacher says are safe.

Using Technology Kindly

- I will be kind when using technology, just like I am in real life.
- I will take care of the computers and tablets I use.
- I will only look at things my teacher says are OK.

Making Good Choices

- I will ask my teacher before I use someone else's pictures or work.
- I will take breaks from screens and do other fun things too.
- I know that I can say no / please stop to anyone online who makes me feel sad, uncomfortable, embarrassed or upset.
- I will ask for help from a trusted adult if I am not sure what to do or if I think I may have done something wrong.

What Happens If I Forget the Rules

- If I forget the rules, my teacher will help me learn to make better choices next time.

These rules help us all stay safe and have fun using computers and tablets at school!

Signed (child):

(The school will need to decide whether or not they wish the children to sign the agreement – and at which age - for younger children the signature of a parent/carer should be sufficient)

Signed (parent):

Primary schools using this acceptable use agreement for younger children may also wish to use (or adapt for use) the parent/carer acceptable use agreement (the template can be found later in these templates) as this provides additional permission forms (including the digital and video images permission form).

A4 Parent/Carer Acceptable Use Agreement Template

Digital technologies have become integral to the lives of children and young people, both within schools and outside school. These technologies provide powerful tools, which open new opportunities for everyone. They can stimulate discussion, promote creativity, and stimulate awareness of context to promote effective learning. Young people should have an entitlement to safe internet access at all times.

This acceptable use policy is intended to ensure:

- that young people will be responsible users and stay safe while using the internet and other communications technologies for educational, personal and recreational use.
- that school systems and users are protected from accidental or deliberate misuse that could put the security of the systems and users at risk.
- that parents and carers are aware of the importance of online safety and are involved in the education and guidance of young people with regard to their on-line behaviour.

The school will try to ensure that learners have good access to digital technologies to enhance their learning and will, in return, expect the learners to agree to be responsible users. A copy of the learner acceptable use agreement is attached to this permission form, so that parents/carers will be aware of the school expectations of the young people in their care.

Parents are requested to sign the permission form below to show their support of the school in this important aspect of the school's work. [\(Schools will need to decide whether they wish parents to sign the acceptable use agreement on behalf of their child\)](#)

Permission Form

Parent/Carers Name:

Learner Name:

As the parent/carers of the above learners, I give permission for my son/daughter to have access to the digital technologies at school.

[Either: \(KS2 and above\)](#)

I know that my son/daughter has signed an acceptable use agreement and has received, or will receive, online safety education to help them understand the importance of safe use of technology and the internet – both in and out of school.

Or: (KS1)

I understand that the school has discussed the acceptable use agreement with my son/daughter and that they have received, or will receive, online safety education to help them understand the importance of safe use of technology and the internet – both in and out of school.

I understand that the school will take every reasonable precaution, including monitoring and filtering systems, to ensure that young people will be safe when they use the internet and systems. I also understand that the school cannot ultimately be held responsible for the nature and content of materials accessed on the internet and using mobile technologies.

I understand that my son's/daughter's activity on the systems will be monitored and that the school will contact me if they have concerns about any possible breaches of the acceptable use agreement.

I will encourage my child to adopt safe use of the internet and digital technologies at home and will inform the school if I have concerns over my child's online safety.

As the schools is collecting personal data by issuing this form, it should inform parents/carers as to:

This form (electronic or printed)
Who will have access to this form.
Where this form will be stored.
How long this form will be stored for.
How this form will be destroyed.

Signed:

Date:

Use of Digital/Video Images

The use of digital/video images plays an important part in learning activities. Learners and members of staff may use digital cameras to record evidence of activities in lessons and out of school. These images may then be used in presentations in subsequent lessons.

Images may also be used to celebrate success through their publication in newsletters, on the school website and occasionally in the public media. Where an image is publicly shared by any means, only your child's **delete as relevant** first name/initials will be used.

The school will comply with the Data Protection Act and request parent's/carer's permission before taking images of members of the school. We will also ensure that when images are published that the young people cannot be identified by the use of their names.

In accordance with guidance from the Information Commissioner's Office, parents/carers are welcome to take videos and digital images of their children at school events for their own personal use (as such use is not covered by the Data Protection Act). To respect everyone's privacy and in some cases protection, these images should not be published/made publicly available on social networking sites, nor should parents/carers comment on any activities involving other learners in the digital/video images.

Parents/carers are requested to sign the permission form below to allow the school to take and use images of their children and for the parents/carers to agree.

As the school is collecting personal data by issuing this form, it should inform parents/carers as to:

This form (electronic or printed)	The images
Who will have access to this form.	Where the images may be published. Such as; Twitter, Facebook, the school's website, local press, etc. (see relevant section of form below)
Where this form will be stored.	Who will have access to the images.
How long this form will be stored for.	Where the images will be stored.
How this form will be destroyed.	How long the images will be stored for.
	How the images will be destroyed.

	How a request for deletion of the images can be made.
--	---

Digital/Video Images Permission Form

Parent/Carers Name:.....Learner Name:.....

As the parent/carer of the above learner, I agree to the school taking digital/video images of my child/children.	Yes/No
I agree to these images being used:	
<ul style="list-style-type: none"> to support learning activities. 	Yes/No
<ul style="list-style-type: none"> in publicity that reasonably celebrates success and promotes the work of the school. 	Yes/No
Insert statements here that explicitly detail where images are published by the schools	Yes/No
I agree that if I take digital or video images at, or of school events which include images of children, other than my own, I will abide by these guidelines in my use of these images.	Yes/No

Use of Cloud Systems Permission Form

Schools that use cloud hosting services may be required to seek parental permission to set up an account for learners.

Schools will need to review and amend the section below, depending on which cloud hosted services are used.

The school uses **insert cloud service provider name** for learners and staff. This permission form describes the tools and learner responsibilities for using these services.

The following services are available to each learner as part of the school's online presence in **insert cloud service provider name**

Using **insert cloud service provider name** will enable your child to collaboratively create, edit and share files and websites for school related projects and communicate via email with other learners and members of staff. These services are entirely online and available 24/7 from any internet-connected computer.

The school believes that use of the tools significantly adds to your child's educational experience.

As the school is collecting personal data and sharing this with a third party, it should inform parents/carers about:

This form (electronic or printed)	The data shared with the service provider
Who will have access to this form.	What data will be shared
Where this form will be stored.	Who the data will be shared with
How long this form will be stored for.	Who will have access to the data.
How this form will be destroyed.	Where the data will be stored.
	How long the data will be stored for.
	How the data will be destroyed.
	How a request for deletion of the data can be made.

Do you consent to your child to having access to this service? Yes/No

Learner Name:Parent/Carers Name:.....

Signed:Date:

Use of Biometric Systems in England and Wales

If the school uses biometric systems (e.g. fingerprint/palm recognition technologies) to identify children for access, attendance recording, charging, library lending etc it must (under the “Protection of Freedoms” and Data Protection legislation) seek permission from a parent or carer.

The school uses biometric systems for the recognition of individual children in the following ways (the school should describe here how it uses the biometric system).

Biometric technologies have certain advantages over other automatic identification systems as learners do not need to remember to bring anything with them (to the canteen or school library) so nothing can be lost, such as a swipe card.

The school has carried out a data privacy impact assessment and is confident that the use of such technologies is effective and justified in a school context.

No complete images of [fingerprints/palms](#) are stored and the original image cannot be reconstructed from the data. Meaning that it is not possible, for example, to recreate a learner's fingerprint or even the image of a fingerprint from what is in effect a string of numbers.

As the school is collecting special category personal data and **delete as appropriate** sharing this with a third party, it should inform parents/carers about:

This form (electronic or printed)	The data shared with the service provider
Who will have access to this form.	What data will be shared
Where this form will be stored.	Who the data will be shared with
How long this form will be stored for.	Who will have access to the data.
How this form will be destroyed.	Where the data will be stored.
	How long the data will be stored for.
	How the data will be destroyed.
	How consent to process the biometric data can be withdrawn.

Parent/Carers Name:

Learner Name:

As the parent/carer of the above learner, I agree to the school using biometric recognition systems, as described above. Yes/No

I understand that the images cannot be used to create a whole [fingerprint/palm print](#) of my child and that these images will not be shared with anyone outside the school. Yes/No

Signed:

Further guidance

- (In England) Each parent of the child should be notified by the school that they are planning to process their child's biometrics and notified that they are able to object.
- In order for a school to process children's biometrics at least one parent must consent and no parent has withdrawn consent. This needs to be in writing.
- The child can object or refuse to participate in the processing of their biometric data regardless of parents' consent.
- Schools must provide reasonable alternative means of accessing services for those learners who will not be using an automated biometric recognition system.
- Permission only needs to be collected once during the period that the learner attends the school, but new permission is required if there are changes to the biometric systems in use.

Learner Acceptable Use Agreement

On the following pages we have copied, for the information of parents and carers, the learner acceptable use agreement.

It is suggested that when the learner AUA is written that a copy should be attached to the parents/carers acceptable use agreement to provide information for parents and carers about the rules and behaviours that learners have committed to by signing the form.

A5 Staff (and Volunteer) Acceptable Use Agreement Template

This template has been significantly updated in January 2025 to take account of changes in digital technologies and behaviours, the use of AI systems in schools and updated guidance in Keeping Children Safe in Education and the DfE Technical Standards for Schools. Schools already using this template are recommended to adopt this new version as there are too many changes to make a “tracked changes” version usable. Schools that require a tracked changes version should email 360safe@swgfl.org.uk.

Sections that include advice or guidance are written in BLUE. It is anticipated that schools will remove these sections from their final document. Schools should review and amend the contents of this agreement to ensure that it is consistent with their Online Safety Policy and other relevant school policies. Due to the number of optional statements and the advice/guidance sections included in this template, it is anticipated that the final AUA will be more concise.

School Policy

Digital technologies have become integral to the lives of everyone, including children and young people, both within schools and in their lives outside school. The internet and digital technologies are powerful tools, which can stimulate discussion, promote creativity and stimulate awareness of context to promote effective learning. They also bring opportunities for staff to be more creative and productive in their work. The school has the right to protect itself and its systems and all users should have an entitlement to safe access to the internet and digital technologies at all times.

This acceptable use policy is intended to ensure:

- that staff and volunteers will be responsible users and stay safe while online and using digital technologies for educational, personal and recreational use
- that school systems and users are protected from accidental or deliberate misuse that could put the security of the systems and users at risk
- that staff are protected from potential risk in their use of technology in their everyday work.

The school will try to ensure that staff and volunteers will have good access to digital technology to enhance their work, to enhance learning opportunities and will, in return, expect staff and volunteers to agree to be responsible users.

Acceptable Use Policy Agreement

I understand that I must use school systems in a responsible way, to minimise the risk to the safety, privacy or security of the school community and its systems. I acknowledge the potential of digital

technologies for enhancing learning and will endeavour to integrate them in a way that aligns with the school's policy, ethos and values.

For my professional and personal safety: (schools should amend this section in the light of relevant policies):

- I understand that the school will monitor my use of school devices and digital technology systems
- I understand that the rules set out in this agreement also apply to use of these devices and technologies out of school, and to the transfer of personal / sensitive data (digital or paper based) out of the school
- I understand that the school devices and digital technology systems are primarily intended for educational use and that I will only use them for personal or recreational use within relevant school policies. .
- I will not disclose my username or password to anyone else, nor will I try to use any other person's username and password.
- I will store my passwords securely and in line with the school's relevant security policy.
- I will immediately report any illegal, inappropriate or harmful material or incident, I become aware of, to the appropriate person.

I will be professional in my communications and actions when using digital technologies and systems: (schools should amend this section in the light of relevant policies):

- I will not access, copy, remove or otherwise alter any other user's files, without their express permission.
- I will communicate with others in a professional manner. I will not use aggressive or inappropriate language and I appreciate that others may have different opinions.
- I will ensure that when I take and/or publish images of others I will do so with their permission and in accordance with the school's policy on the use of digital/video images, and taking account of parental permissions. I will not use my personal equipment to record these images, unless I have permission to do so. Where these images are published (e.g. on the school website) it will not be possible to identify by name, or other personal information, those who are featured.
- I will only use social networking sites in the school in accordance with school policies.
- I will only communicate with learners and parents/carers using official school systems. Any such communication will be professional in tone and manner.
- I will not engage in any online activity that may compromise my professional responsibilities.

The school has the responsibility to provide safe and secure access to technologies and ensure the smooth running of the school: (schools should amend this section in the light of relevant policies):

- I will abide by all relevant guidance and legislation (e.g., Keeping Children Safe in Education / UK GDPR)

- I will ensure that I am aware of cyber-security risks and that I will not respond to any communications that might put my / school data or systems at risk from attack
- When using AI systems in my professional role I will use these responsibly and:
 - will only use AI technologies approved by the school
 - will be aware of the risks of bias and discrimination, critically evaluating the outputs of AI systems for such risks
 - to protect personal and sensitive data, I will ensure that I have explicit authorisation when uploading sensitive school-related information into AI systems
 - will take care not to infringe copyright or intellectual property conventions – care will be taken to avoid intellectual property, including that of the learners, being used to train generative AI models without appropriate consent.
 - ensure that documents, emails, presentations, and other outputs influenced by AI include clear labels or notes indicating AI assistance
 - critically evaluate AI-generated outputs to ensure that all AI-generated content is fact-checked and reviewed for accuracy before sharing or publishing
 - will use generative AI tools responsibly to create authentic and beneficial content, ensuring respect for individuals' identity and well-being
- *When I use my personal mobile devices in school, I will follow the rules set out by the school, in the same way as if I was using school equipment. I will ensure that any such devices are protected by up to date anti-virus / anti-malware software and are free from viruses.*
- *When communicating in a professional capacity, I will only use technology and systems sanctioned by the school.*
- *I will not use personal accounts on school systems.*
- I will exercise informed safe and secure practice when accessing links to content from outside of my organisation to reduce the risk of cyber security threats.
- I will ensure that my data is regularly backed up, in accordance with relevant school policies.
- I will not access illegal, inappropriate or harmful content on school systems.
- I will not bypass any filtering or security systems that are used to prevent access to such content.
- I will not install or attempt to install unauthorised programmes of any type on a school device , nor will I try to alter device settings, unless this is allowed in school policies
- I will not disable or cause any damage to school equipment, or the equipment belonging to others.
- I will only transport, hold, disclose or share personal information about myself or others, as outlined in the school Data Security Policy (or other relevant policy). Where digital personal data is transferred outside the secure local network, it must be encrypted. Paper based documents containing personal data must be held in lockable storage.
- I understand that the data protection policy requires that any staff or learner data to which I have access, will be kept private and confidential, except when it is deemed necessary that I

am required by law or by school policy to disclose such information to an appropriate authority.

- I will immediately report any damage or faults involving equipment or software, however this may have happened.

When using the internet in my professional capacity or for school sanctioned personal use:

- I will ensure that I have appropriate permissions to use the original work of others in my own work and will reflect this with appropriate acknowledgements, particularly where AI has been used to generate content
- Where content is protected by copyright, I will not download or distribute copies (including music and videos).

I understand that I am responsible for my actions in and out of the school:

- I understand that this acceptable use agreement applies to my use of digital technologies related to my professional responsibilities , within or outside of the school.
- I will ensure my use of technologies and platforms is in line with the school's agreed codes of conduct.
- I understand that if I fail to comply with this acceptable use agreement, I could be subject to disciplinary action. This could include (schools should amend this section to provide relevant sanctions as per their behaviour policies) a warning, a suspension, referral to Governors and/or the Local Authority / Trust in the event of illegal activities, the involvement of the Police.

I have read and understand the above and agree to use the school digital technology systems (both in and out of the school) and my own devices (in the school and when carrying out communications related to the school) within these guidelines.

Staff/Volunteer Name:

Signed:

Date:

A6 Acceptable Use Agreement for Community Users Template

This acceptable use agreement is intended to ensure:

- that community users of school digital technologies will be responsible users and stay safe while using these systems and devices
- that school systems, devices and users are protected from accidental or deliberate misuse that could put the security of the systems and users at risk.
- that users are protected from potential harm in their use of these systems and devices

Acceptable Use Agreement

I understand that I must use school systems and devices in a responsible way, to ensure that there is no risk to my safety or to the safety and security of the systems, devices and other users. This agreement will also apply to any personal devices that I bring into the school:

- I understand that my use of school systems and devices will be monitored
- I will not use a personal device that I have brought into school for any activity that would be inappropriate in a school setting.
- I will not try to upload, download or access any materials which are illegal (child sexual abuse images, criminally racist material, terrorist and extremist material, adult pornography covered by the Obscene Publications Act) or inappropriate or may cause harm or distress to others. I will not try to use any programmes or software that might allow me to bypass the filtering/security systems in place to prevent access to such materials.
- I will immediately report any illegal, inappropriate or harmful material or incident, I become aware of, to the appropriate person.
- I will not access, copy, remove or otherwise alter any other user's files, without permission.
- I will ensure that if I take and/or publish images of others I will only do so with their permission. I will not use my personal equipment to record these images, without permission. If images are published it will not be possible to identify by name, or other personal information, those who are featured.
- I will not publish or share any information I have obtained whilst in the school on any personal website, social networking site or through any other means, unless I have permission from the school.
- I will not, without permission, make large downloads or uploads that might take up internet capacity and prevent other users from being able to carry out their work.
- I will not install or attempt to install programmes of any type on a school device, nor will I try to alter computer settings, unless I have permission to do so.
- I will not disable or cause any damage to school equipment, or the equipment belonging to others.
- I will immediately report any damage or faults involving equipment or software, whatever the cause.
- I will ensure that I have permission to use the original work of others in my own work

- Where work is protected by copyright, I will not download or distribute copies (including music and videos).
- I understand that if I fail to comply with this acceptable use agreement, the school has the right to remove my access to school systems/devices

I have read and understand the above and agree to use the school systems (both in and out of school) and my own devices (in school and when carrying out communications related to the school) within these guidelines.

As the school is collecting personal data by issuing this form, it should inform community users about:

Who will have access to this form.	How this form will be destroyed.
Where this form will be stored.	How long this form will be stored for.

Name: Signed: Date:

A7 School Policy Template – Online Safety Group Terms of Reference

1. Purpose

To provide a consultative group that has wide representation from the [school] community, with responsibility for issues regarding online safety and the monitoring the online safety policy including the impact of initiatives. Depending on the size or structure of the schools this group may be part of the safeguarding group. The group will also report regularly to the Full Governing Body. Schools will need to decide to what extent the formalities described below are needed in their situation.

2. Membership

2.1. The online safety group will seek to include representation from all stakeholders.

The composition of the group should include (N.B. in small schools one member of staff may hold more than one of these posts): [add/delete where appropriate]

- SLT member/s
- Designated Safeguarding Lead (DSL)
- Online Safety Lead (OSL)
- Teaching staff member
- Support staff member
- Governor
- Parent/Carer
- IT Support Provider
- Community users (where appropriate)
- *Learner representation* – for advice and feedback. *Learner voice is essential in the make-up of the online safety group, but learners would only be expected to take part in committee meetings where deemed relevant.*

2.2. Other people may be invited to attend the meetings at the request of the Chairperson on behalf of the committee to provide advice and assistance where necessary.

2.3. Committee members must declare a conflict of interest if any incidents being discussed directly involve themselves or members of their families.

2.4. Committee members must be aware that many issues discussed by this group could be of a sensitive or confidential nature

2.5. When individual members feel uncomfortable about what is being discussed they should be allowed to leave the meeting with steps being made by the other members to allow for these sensitivities

3. Chairperson

The Committee should select a suitable Chairperson from within the group. Their responsibilities include:

- Scheduling meetings and notifying members;
- Inviting other people to attend meetings when required

- Guiding the meeting according to the agenda and time available;
- Ensuring all discussion items end with a decision, action or definite outcome;
- Making sure that notes are taken at the meetings and that these with any action points are distributed as necessary

4. Duration of Meetings

Meetings shall be held [insert frequency] for a period of [insert number] hour(s).

5. Functions

These are to assist the DSL/OSL (or other relevant person) with the following [add/delete where relevant]:

- To keep up to date with new developments in the area of online safety
- To (at least) annually review and develop the online safety policy in line with new technologies and incidents
- To monitor the delivery and impact of the online safety policy
- To monitor the log of reported online safety incidents (anonymous) to inform future areas of teaching/learning/training.
- To co-ordinate consultation with the whole school community to ensure stakeholders are up to date with information, training and/or developments in the area of online safety. This could be carried out through [add/delete as relevant]:
 - Staff meetings
 - Learner forums (for advice and feedback)
 - Governors meetings
 - Surveys/questionnaires for learners, parents/carers and staff
 - Parents evenings
 - Website/newsletters
 - Online safety events
 - Internet Safety Day (annually held on the second Tuesday in February)
 - Other methods
- To ensure that monitoring is carried out of Internet sites used across the schools.
- To monitor filtering/change control logs (e.g. requests for blocking/unblocking sites).
- To monitor the safe use of data across the schools
- To monitor incidents involving cyberbullying for staff and learners

6. Amendments

The terms of reference shall be reviewed annually from the date of approval. They may be altered to meet the current needs of all committee members, by agreement of the majority. The above Terms of Reference for [insert name of organisation] have been agreed.

Signed by (SLT): Date:.....

Date for review:

Acknowledgement This template terms of reference document is based on one provided to schools by Somerset County Council

A9 Computer Misuse and Cyber Choices Policy Template

All key stakeholders, including the school IT service provider, have responsibility for the safeguarding of young people from computer misuse and are aware of the Cyber Choices programme led by the National Crime Agency (NCA) and managed locally by Regional Organised Crime Units (part of the national policing network). The risks to young people of crossing the line into committing cybercrimes is a safeguarding issue. This often happens without the individual even realising, young people need support in making the right #CyberChoices in their use of technology. Young people with an interest in technology, a high IQ, and an appetite to engage in risky behaviours are considered to be at a higher risk of committing a cyber offence, but many first-time offenders are also unaware of what the law governing cyber offences actually is. The average age of first-time cyber offenders in the UK has fallen significantly in recent years. The Cyber Choices programme works with individuals committing, or at risk of committing, cybercrimes which can only be carried out with technology, where devices are both the tool for committing the crime, and the target of the crime.

All staff are made aware of the safeguarding risks of computer misuse.

All staff are familiar with the [NCA Hacking it Legal Leaflet*](#), which explains Cyber Choices and the Computer Misuse Act 1990, and lists recommended resources for teachers to use.

Staff are aware of the role of their local Regional Organised Crime Unit as their point of contact for Cyber Choices referrals.

Learners agree to the Acceptable Use Policy (AUP) which outlines acceptable online behaviours and explains that some online activity is illegal. Acceptable computer use is reinforced across the curriculum, with opportunities to discuss how to act within moral and legal boundaries online, with reference to the Computer Misuse Act 1990. [Lessons and further resources are available on the NCA Cyber Choices site.](#)

Any breach of the AUP or activity by a learner that may constitute a cybercrime, in school or at home, will be referred to the Designated Safeguarding Lead for consideration as a safeguarding risk.

Where the DSL believes that the learner may be at risk of committing cybercrimes, or to already be committing cybercrimes, a referral to the local [Cyber Choices](#) programme will be made (contact details for all Regional Organised Crime Units are available in the “what to do if you’re concerned” section at the bottom of the [NCA Cyber Choices page](#)). Where the DSL is unsure if a learner meets the referral criteria, advice should be sought from the local Cyber Choices team.

Parents also have the opportunity report potential cybercrime directly to the local Cyber Choices team but are recommended to make school-based concerns through the DSL.

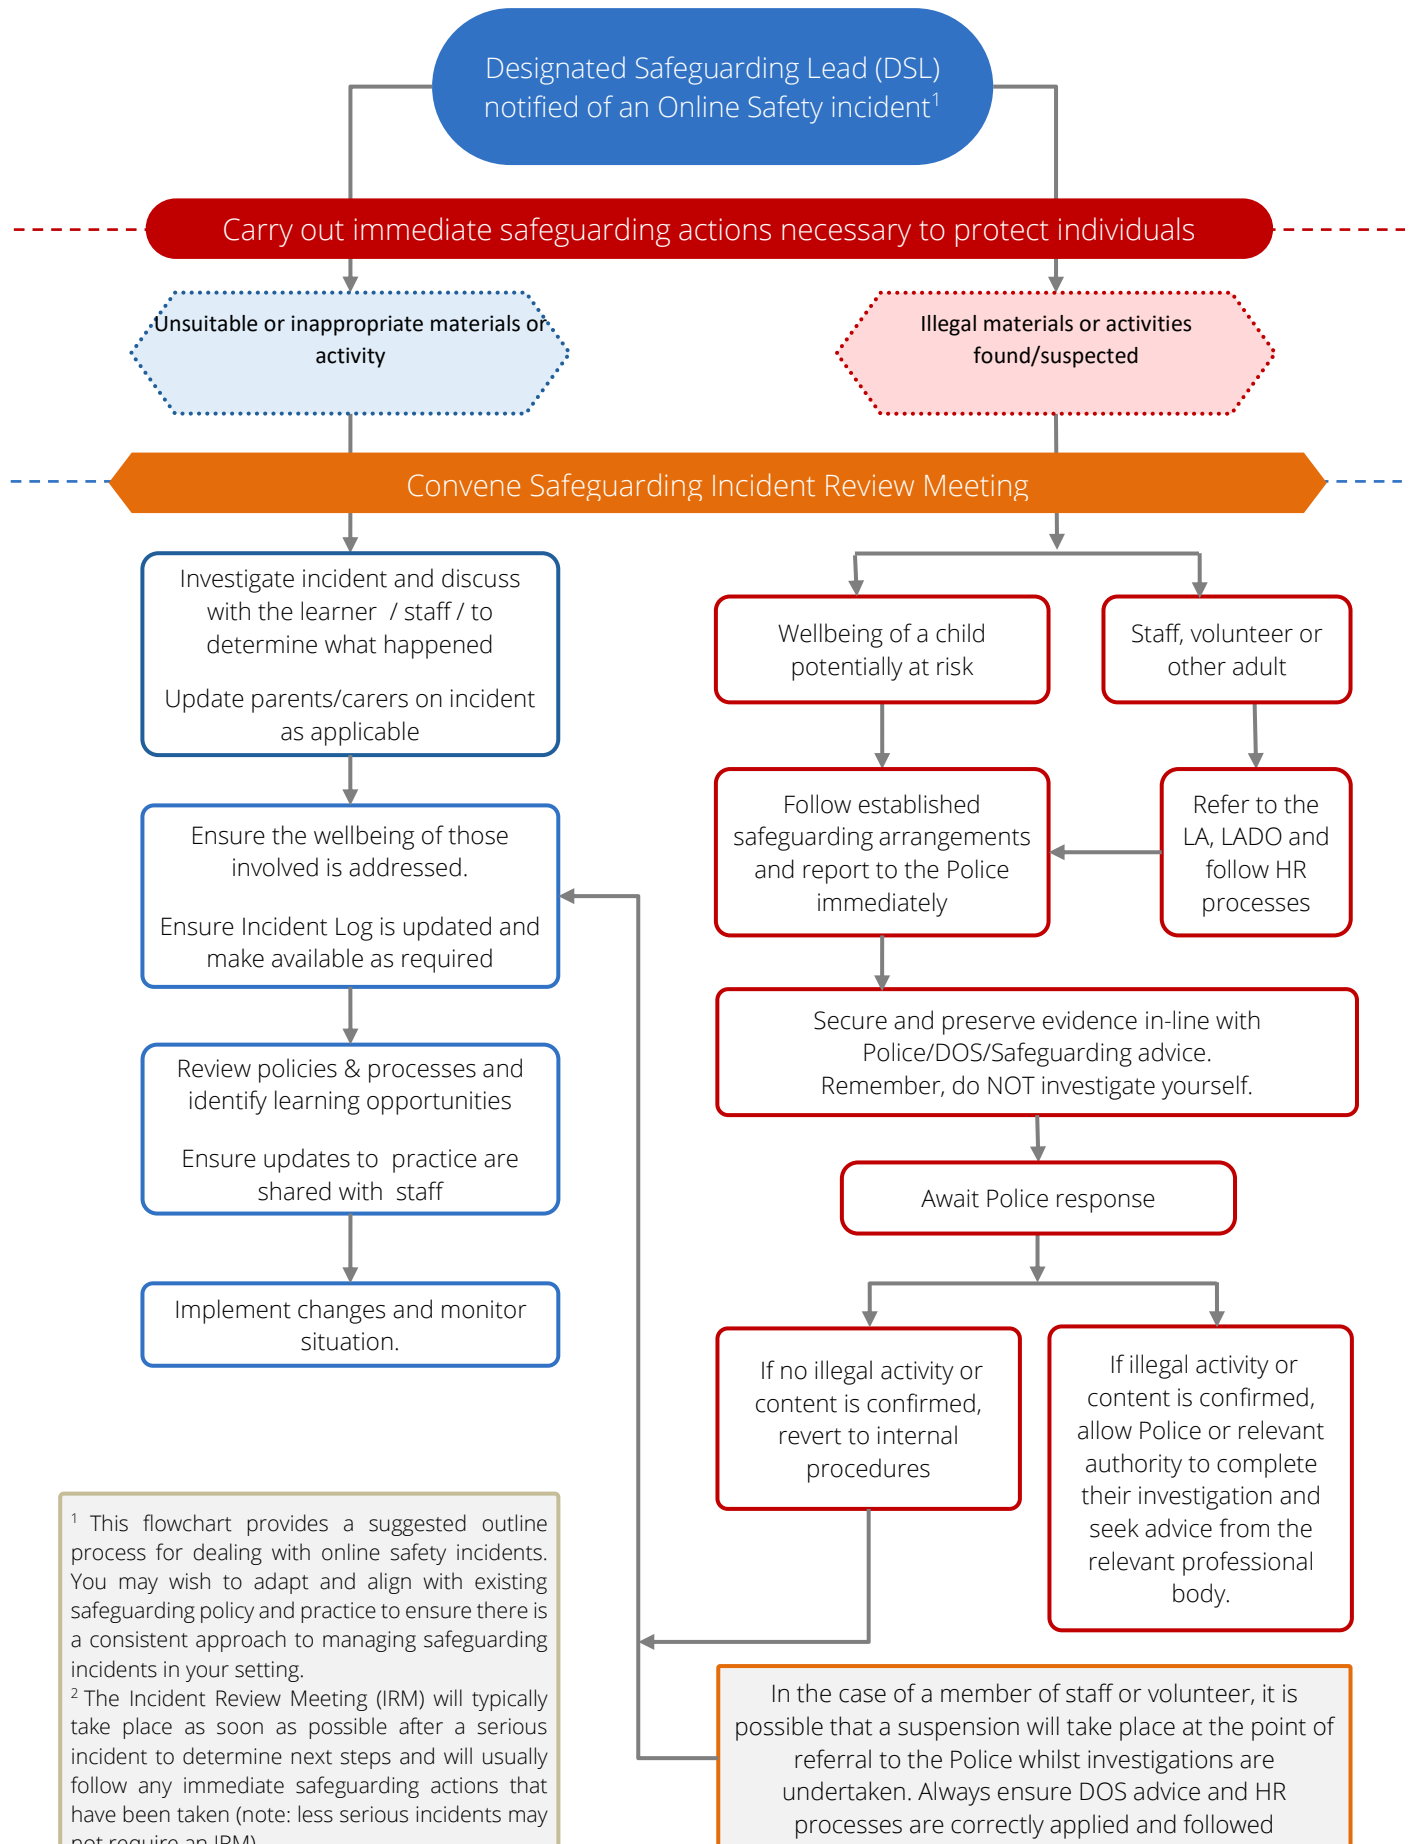

The IT service provider is aware of the safeguarding requirement to refer concerns about computer misuse to the Designated Safeguarding Lead and has a clear process to follow in order to do so.

Information for parents about NCA Cyber Choices is available on the school website.

This policy template is based on a document for schools published by the South East Regional Organised Crime Unit (SEROCU) and has been amended for use across the UK. SWGfL would like to acknowledge the support of SEROCU for permission to adapt and use the document.

Schools will need to contact their local [ROCU / Cyber Choices](#) team regarding local processes.

A10 Responding to incidents of misuse – flow chart (new layout – January 2025)

¹ This flowchart provides a suggested outline process for dealing with online safety incidents. You may wish to adapt and align with existing safeguarding policy and practice to ensure there is a consistent approach to managing safeguarding incidents in your setting.

² The Incident Review Meeting (IRM) will typically take place as soon as possible after a serious incident to determine next steps and will usually follow any immediate safeguarding actions that have been taken (note: less serious incidents may not require an IRM).

In the case of a member of staff or volunteer, it is possible that a suspension will take place at the point of referral to the Police whilst investigations are undertaken. Always ensure DOS advice and HR processes are correctly applied and followed

A11 Record of reviewing devices/internet sites (responding to incidents of misuse)

Legislation

Schools should be aware of the legislative framework under which this online safety policy template and guidance has been produced. It is important to note that in general terms an action that is illegal if committed offline is also illegal if committed online.

It is recommended that legal advice is sought in the advent of an online safety issue or situation.

A useful summary of relevant legislation can be found at: [Report Harmful Content: Laws about harmful behaviours](#)

Computer Misuse Act 1990

This Act makes it an offence to:

- Erase or amend data or programs without authority;
- Obtain unauthorised access to a computer;
- “Eavesdrop” on a computer;
- Make unauthorised use of computer time or facilities;
- Maliciously corrupt or erase data or programs;
- Deny access to authorised users.

Schools may wish to view the National Crime Agency website which includes information about [“Cyber crime – preventing young people from getting involved”](#). Each region in England (& Wales) has a Regional Organised Crime Unit (ROCU) Cyber-Prevent team that works with schools to encourage young people to make positive use of their cyber skills. There is a useful [summary of the Act on the NCA site](#).

Data Protection Act 1998

This protects the rights and privacy of individual’s data. To comply with the law, information about individuals must be collected and used fairly, stored safely and securely and not disclosed to any third party unlawfully. The Act states that person data must be:

- Fairly and lawfully processed.
- Processed for limited purposes.
- Adequate, relevant and not excessive.
- Accurate.
- Not kept longer than necessary.

- Processed in accordance with the data subject's rights.
- Secure.
- Not transferred to other countries without adequate protection.

The Data Protection Act 2018:

Updates the 1998 Act, incorporates the General Data Protection Regulations (GDPR) and aims to:

- Facilitate the secure transfer of information within the European Union.
- Prevent people or organisations from holding and using inaccurate information on individuals. This applies to information regarding both private lives or business.
- Give the public confidence about how businesses can use their personal information.
- Provide data subjects with the legal right to check the information businesses hold about them. They can also request for the data controller to destroy it.
- Give data subjects greater control over how data controllers handle their data.
- Place emphasis on accountability. This requires businesses to have processes in place that demonstrate how they're securely handling data.
- Require firms to keep people's personal data safe and secure. Data controllers must ensure that it is not misused.
- Require the data user or holder to register with the Information Commissioner.

All data subjects have the right to:

- Receive clear information about what you will use their data for.
- Access their own personal information.
- Request for their data to be revised if out of date or erased. These are known as the right to rectification and the right to erasure
- Request information about the reasoning behind any automated decisions, such as if computer software denies them access to a loan.
- Prevent or query about the automated processing of their personal data.

Freedom of Information Act 2000

The Freedom of Information Act gives individuals the right to request information held by public authorities. All public authorities and companies wholly owned by public authorities have obligations under the Freedom of Information Act. When responding to requests, they have to follow a number of set procedures.

Communications Act 2003

Sending by means of the Internet a message or other matter that is grossly offensive or of an indecent, obscene or menacing character; or sending a false message by means of or persistently making use of the Internet for the purpose of causing annoyance, inconvenience or needless anxiety is guilty of an offence liable, on conviction, to imprisonment. This wording

is important because an offence is complete as soon as the message has been sent: there is no need to prove any intent or purpose.

Malicious Communications Act 1988

It is an offence to send an indecent, offensive, or threatening letter, electronic communication or other article to another person.

Regulation of Investigatory Powers Act 2000

It is an offence for any person to intentionally and without lawful authority intercept any communication. Monitoring or keeping a record of any form of electronic communications is permitted, in order to:

- Establish the facts;
- Ascertain compliance with regulatory or self-regulatory practices or procedures;
- Demonstrate standards, which are or ought to be achieved by persons using the system;
- Investigate or detect unauthorised use of the communications system;
- Prevent or detect crime or in the interests of national security;
- Ensure the effective operation of the system.
- Monitoring but not recording is also permissible in order to:
 - Ascertain whether the communication is business or personal;
 - Protect or support help line staff.
- The school reserves the right to monitor its systems and communications in line with its rights under this act.

Trade Marks Act 1994

This provides protection for Registered Trade Marks, which can be any symbol (words, shapes or images) that are associated with a particular set of goods or services. Registered Trade Marks must not be used without permission. This can also arise from using a Mark that is confusingly similar to an existing Mark.

Copyright, Designs and Patents Act 1988

It is an offence to copy all, or a substantial part of a copyright work. There are, however, certain limited user permissions, such as fair dealing, which means under certain circumstances permission is not needed to copy small amounts for non-commercial research or private study. The Act also provides for Moral Rights, whereby authors can sue if their name is not included in a work they wrote, or if the work has been amended in such a way as to impugn their reputation. Copyright covers materials in print and electronic form,

and includes words, images, and sounds, moving images, TV broadcasts and other media (e.g. YouTube).

Telecommunications Act 1984

It is an offence to send a message or other matter that is grossly offensive or of an indecent, obscene or menacing character. It is also an offence to send a message that is intended to cause annoyance, inconvenience or needless anxiety to another that the sender knows to be false.

Criminal Justice & Public Order Act 1994

This defines a criminal offence of intentional harassment, which covers all forms of harassment, including sexual. A person is guilty of an offence if, with intent to cause a person harassment, alarm or distress, they:

- Use threatening, abusive or insulting words or behaviour, or disorderly behaviour; or
- Display any writing, sign or other visible representation, which is threatening, abusive or insulting, thereby causing that or another person harassment, alarm or distress.

Racial and Religious Hatred Act 2006

This Act makes it a criminal offence to threaten people because of their faith, or to stir up religious hatred by displaying, publishing or distributing written material which is threatening. Other laws already protect people from threats based on their race, nationality or ethnic background.

Protection from Harassment Act 1997

A person must not pursue a course of conduct, which amounts to harassment of another, and which he knows or ought to know amounts to harassment of the other. A person whose course of conduct causes another to fear, on at least two occasions, that violence will be used against him is guilty of an offence if he knows or ought to know that his course of conduct will cause the other so to fear on each of those occasions.

Protection of Children Act 1978

It is an offence to take, permit to be taken, make, possess, show, distribute or advertise indecent images of children in the United Kingdom. A child for these purposes is anyone under the age of 18. Viewing an indecent image of a child on your computer means that you have made a digital image. An image of a child also covers pseudo-photographs (digitally collated or otherwise). A person convicted of such an offence may face up to 10 years in prison

Sexual Offences Act 2003

A grooming offence is committed if you are over 18 and have communicated with a child under 16 at least twice (including by phone or using the Internet) it is an offence to meet them or travel to meet them anywhere in the world with the intention of committing a sexual offence. Causing a child under 16 to watch a sexual act is illegal, including looking at images such as videos, photos or webcams, for your own gratification. It is also an offence for a person in a position of trust to engage in sexual activity with any person under 18, with whom they are in a position of trust. (Typically, teachers, social workers, health professionals, connexions staff fall in this category of trust). Any sexual intercourse with a child under the age of 13 commits the offence of rape.

Public Order Act 1986

This Act makes it a criminal offence to stir up racial hatred by displaying, publishing or distributing written material which is threatening. Like the Racial and Religious Hatred Act 2006 it also makes the possession of inflammatory material with a view of releasing it a criminal offence. Children, Families and Education Directorate page 38 April 2007.

Obscene Publications Act 1959 and 1964

Publishing an “obscene” article is a criminal offence. Publishing includes electronic transmission.

Human Rights Act 1998

This does not deal with any particular issue specifically or any discrete subject area within the law. It is a type of “higher law”, affecting all other laws. In the school context, human rights to be aware of include:

- The right to a fair trial
- The right to respect for private and family life, home and correspondence
- Freedom of thought, conscience and religion
- Freedom of expression
- Freedom of assembly
- Prohibition of discrimination
- The right to education

These rights are not absolute. The school is obliged to respect these rights and freedoms, balancing them against those rights, duties and obligations, which arise from other relevant legislation.

The Education and Inspections Act 2006

Empowers Headteachers, to such extent as is reasonable, to regulate the behaviour of learners when they are off the school site and empowers members of staff to impose disciplinary penalties for inappropriate behaviour.

The Education and Inspections Act 2011

Extended the powers included in the 2006 Act and gave permission for Headteachers (and nominated staff) to search for electronic devices. It also provides powers to search for data on those devices and to delete data.

(see template policy in these appendices and for DfE guidance - <http://www.education.gov.uk/schools/learnersupport/behaviour/behaviourpolicies/f0076897/screening-searching-and-confiscation>)

The Protection of Freedoms Act 2012

Requires schools to seek permission from a parent/carer to use Biometric systems

The School Information Regulations 2012

Requires schools to publish certain information on its website:

<https://www.gov.uk/guidance/what-maintained-schools-must-publish-online>

Serious Crime Act 2015

Introduced new offence of sexual communication with a child. Also created new offences and orders around gang crime (including CSE)

Criminal Justice and Courts Act 2015

Revenge porn – as it is now commonly known – involves the distribution of private and personal explicit images or video footage of an individual without their consent, with the intention of causing them embarrassment and distress. Often revenge porn is used maliciously to shame ex-partners. Revenge porn was made a specific offence in the Criminal Justice and Courts Act 2015. The Act specifies that if you are accused of revenge porn and found guilty of the criminal offence, you could be prosecuted and face a sentence of up to two years in prison.

For further guidance or support please contact the [Revenge Porn Helpline](#)
